## **Connah African Civilizations:**

**African Civilizations** Graham Connah, 2015-11-12 This new revised edition of African Civilizations re-examines the physical evidence for developing social complexity in Africa over the last six thousand years. Unlike the two previous editions, it is not confined to tropical Africa but considers the whole continent. Graham Connah focuses upon the archaeological research of two key aspects of complexity: urbanism and state formation in ten main areas of Africa: Egypt, North Africa, Nubia, Ethiopia, the West African savanna, the West African forest, the East African coast and islands, the Zimbabwe Plateau, parts of Central Africa, and South Africa. The book's main concern is to review the available evidence in its varied environmental settings and to consider possible explanations of the developments that gave rise to it. Extensively illustrated, including new maps and plans, and offering an extended list of references, this is essential reading for students of archaeology, anthropology, African history, black studies, and social geography.

**African Civilizations** Graham Connah, 1987-04-24 Urban settlements and states were a feature of precolonial societies in many parts of Africa. In this study, Graham Connah uses the direct evidence provided by archaeological investigation to demonstrate the complexity of these urban societies, to understand their origins, their economic basis, and social structure. Well-illustrated chapters deal with African civilizations in Nubia, Ethiopia, the West African savanna, the West African forest, the East African coast, the Zimbabwe plateau, and Central Africa.

**Forgotten Africa** Graham Connah, 2004-08-19 *Forgotten Africa* introduces the general reader and beginning student to Africa's past, emphasizing those aspects only known or best known from archaeological and related evidence. It covers four million years of history across the continent, examining important aspects of Africa's momentous human story. Graham Connah is concerned to raise public awareness both inside and outside Africa to this frequently overlooked and often forgotten subject. *Forgotten Africa* examines human origins, the material culture of hunter-gatherers, the beginnings of African farming, the development of metallurgy, the emergence of distinctive artistic traditions, the growth of cities and states, the expansion of trading networks, the impact of European and other external contacts. The result is a fascinating and important story told in a straightforward and readable manner.

*African Civilizations* Graham Connah, 2001-03-29 This edition of *African Civilizations*, first published in 2001, re-examines the physical evidence for developing social complexity in tropical Africa.

**The So Pota of Central Africa** Graham Connah, 2019 *African Archaeology* Volume 91 This book is an original study of very large pots in parts of Chad, Cameroon, and Nigeria. Found in excavations and surface fieldwork, they have been attributed to the So, a group of pre-Islamic inhabitants of the area before the sixteenth century AD who have become mythologised as giants. Originally for burial, in some cases the pots have been dug up by villagers and reused for brewing beer or as dye pits for indigo cloth. The book focuses on a group of these pots that survived until the late twentieth century in villages in a small part of Borno, north-eastern Nigeria. With the passage of time and terrorist activities in the region, their fate is now unknown, and the photographs from 1963 to 1993 reproduced in this book have become a major archive of an unusual
