Subject Guide to Books in Print ,2001 **Fair Housing Act Design Manual** U.S. Department of Housing and Urban Development,United States. Department of Housing and Urban Development. Office of Housing,2005 The Fair Housing Act

Design Manual A Manual to Assist Designers and Builders in Meeting the Accessibility Requirements of The Fair Housing Act provides clear and helpful guidance about ways to design and construct housing which complies with the Fair Housing Act The manual provides direct information about the accessibility requirements of the Act which must be incorporated into the design and construction of multifamily housing covered by the Act It carries out two statutory responsibilities 1 to provide clear statement of HUD s interpretation of the accessibility requirements of the Act so that readers may know what actions on their part will provide them with a safe harbor and 2 to provide guidance in the form of recommendations which although not binding meet the Department s obligation to provide technical assistance on alternative accessibility approaches which will comply with the Act but may exceed its minimal requirements The latter information allows housing providers to choose among alternative and also provides persons with disabilities with information on accessible design approaches The Manual clarifies what are requirements under the Act and what are HUD s technical assistance recommendations The portions describing the requirements are clearly differentiated from the technical assistance recommendations Accessible Design Review Guide Robert R. Grist,1996 A new and innovative approach to both designing and analyzing proposed and existing facilities for ADAAG compliance With its emphasis on physical accessibility the Americans with Disabilities Act Accessibility Guidelines ADAAG have far reaching implications for the design or renovation of virtually all public use buildings and sites in the United States Yet there has been little guidance on how to design and review the drawings and specifications of an existing or proposed facility to assess its ADAAG compliance This invaluable reference provides such guidance at last for architects interior designers landscape architects engineers builders planners facilities managers specification writers construction code officials teachers and students as well as individuals concerned with access issues The authors present the ADAAG in an easily understandable format grouping ADAAG criteria into detailed checklists for specific interior and exterior spaces such as offices classrooms retail shops restaurants restrooms and parking garages This sensible approach makes the review process of any room building or site highly manageable For additional convenience the presentation parallels the design process from schematic design through construction documents including detail schedule and specification review Complete with review forms checklists graphics and other information necessary to ensure ADAAG compliance this thorough guide will prove invaluable to everyone involved with the design or retrofit of accessible buildings and sites
