Mobile Music Studies, Volume 2 Sumanth Gopinath, Jason Stanyek, 2014-03 The two volumes of *The Oxford Handbook of Mobile Music Studies* consolidate an area of scholarly inquiry that addresses how mechanical electrical and digital technologies and their corresponding economies of scale have rendered music and sound increasingly mobile portable fungible and ubiquitous At once a marketing term a common mode of everyday life performance and an instigator of experimental aesthetics mobile music opens up a space for studying the momentous transformations in the production distribution consumption and experience of music and sound that took place between the late nineteenth and the early twenty first centuries Taken together the two volumes cover a large swath of the world the US the UK Japan Brazil Germany Turkey Mexico France China Jamaica Iraq the Philippines India Sweden and a similarly broad array of the musical and nonmusical sounds suffusing the soundscapes of mobility Volume 2 investigates the ramifications of mobile music technologies on musical sonic performance and aesthetics Two core arguments are that mobility is not the same thing as actual movement and that artistic production cannot be absolutely sundered from the performances of quotidian life The volume s chapters investigate the mobilization of frequency range by sirens and miniature speakers sound vehicles such as boom cars ice cream trucks and trains the gestural choreographies of soundwalk pieces and mundane interactions with digital media dance music practices in laptop and iPod DJing the imagery of iPod commercials production practices in Turkish political music and black popular music the aesthetics of handheld video games and chiptune music and the mobile device as a new musical instrument and resource for musical ensembles *Rhymin' and Stealin'* Justin A

Williams, 2013-07-25 *Rhymin and Stealin* begins with a crucial premise the fundamental element of hip hop culture and aesthetics is the overt use of preexisting material to new ends Whether it is taking an old dance move for a breakdancing battle using spray paint to create street art quoting from a famous speech or sampling a rapper or 1970s funk song hip hop aesthetics involve borrowing from the past By appropriating and reappropriating these elements they become transformed into something new something different something hip hop *Rhymin and Stealin* is the first book length study of musical borrowing in hip hop music which not only includes digital sampling but also demonstrates a wider web of references and quotations within the hip hop world Examples from Nas Jay Z A Tribe Called Quest Eminem and many others show that the

transformation of preexisting material is the fundamental element of hip hop aesthetics Although all music genres use and adapt preexisting material in different ways hip hop music celebrates and flaunts its open source culture through highly varied means It is this interest in the web of references borrowed material and digitally sampled sounds that forms the basis of this book sampling and other types of borrowing becomes a framework with which to analyze hip hop music and wider cultural trends
