

# CARDIOVASCULAR SYSTEM : ANATOMY & PHYSIOLOGY

## FUNCTION OF CIRCULATION

Delivers O<sub>2</sub>, nutrients, hormones and antibodies to organs, tissues and cells.  
Removes the end product of cellular metabolism

## FUNCTION OF THE HEART

Pumps oxygenated blood into the arterial system to supply capillaries and tissue.  
Pumps oxygen poor blood from the venous system through the lungs to be reoxygenated.

## ANATOMY OF THE HEART

Cone shaped organ located in the mediastinal space. The pericardial sac encases the heart and protects it, lubricates and holds 5-20 ml of pericardial fluid. This has two layers.

- the parietal pericardium which is the outer membrane
- the visceral pericardium is the inner membrane attached to the heart.

### CONSISTS OF 3 LAYERS

- Epicardium : outermost layer of the heart
- Myocardium: middle layer of the heart, the contracting muscle
- Endocardium: innermost layer of the heart, lines the inner chambers and the valves.

### 4 CHAMBERS

- Right atrium: carries deoxygenated blood from the body via superior and inferior vena cava.
- Right ventricle: carries blood from the right atrium and pumps it into the lungs through the pulmonary artery.
- Left atrium: carries oxygenated blood from the pulmonary veins.
- Left ventricle: carries oxygenated blood from the left atrium and pumps it into the systemic circuit through the aorta.

### 4 VALVES

Two atrioventricular valves that close at the beginning of ventricular contraction. They prevent blood from flowing back into the atria.

- Tricuspid valve : on the right side of the heart
- Bicuspid valve: on the left side of the heart

Two semilunar valves that prevent blood from flowing back into the ventricles during relaxation

- Pulmonary semilunar valve: between the right ventricle and pulmonary artery
- Aortic semilunar valve: between the ventricle and the aorta.

## CORONARY ARTERIES

- Right main coronary artery: supplies the right atrium and ventricle, the inferior left ventricle, posterior septal wall, SA and AV nodes.
- Left main coronary artery: consists of two main branches: left anterior descending which supplies blood to the left ventricle and the ventricular septum, and circumflex arteries which supply blood to the left atrium and the lateral/posterior aspects of the left ventricle.

## BLOOD FLOW OF THE HEART

- From the superior and inferior vena cava oxygen poor blood goes to the right atrium through the tricuspid valve.
- Right atrium to the right ventricle
- Right ventricle to the pulmonary valve
- To the pulmonary trunk and arteries into the lungs CO<sub>2</sub> is lost and O<sub>2</sub> is gained in the pulmonary capillaries.
- O<sub>2</sub> rich blood enters the pulmonary veins to the left atrium.
- Blood travels through the bicuspid valve and enters the left ventricle.
- Blood moves through the aortic valve and travels through the aorta to the systemic circuit.

## Sectional Anatomy of the Heart

### ELECTRICAL CONDUCTION

- SA node: pacemaker of the heart and initiates contraction at 60- 100 BPM.
- AV node: receives impulses from the SA node, initiates and receives impulses at 40-60 BPM.
- Bundle of His: continuation of the AV node and branches into the two bundle branches which terminate in the Purkinje fibers.
- Purkinje fibers: network of conducting strands beneath the ventricular endocardium. They can act as a pacemaker when the SA and AV fail as pace makers. They can sustain at 20-40 BPM.

# Cardiovascular Study Guide 2

**Linda Brannon,Jess Feist**

## **Cardiovascular Study Guide 2:**

**The Primary FRCA Structured Oral Examination Study Guide 2** Kate McCombe,Lara Wijayasiri,Amish Patel,2010

This fully up to date book is designed specifically for candidates preparing for the Primary FRCA structured oral examination incorporating the new exam structure and syllabus Sample questions accurately reflect the examination while model answers are systematically structured with definitions and classifications and illustrated with essential diagrams and graphs The books provide clear and concise explanations to key scientific concepts and problem based answers to clinical scenarios This second part contains questions on pharmacology critical incidents and special patient groups Packed with new guidelines fundamental topics that are poorly covered in other main texts and current hot topics this book and its companion The Primary FRCA Structured Oral Examination Study Guide 1 are the definitive revision aid to the Primary FRCA but will also be of value to candidates preparing for the basic science component of the Final FRCA as reference source for qualified anaesthetists and as a text for tutors preparing candidates for the structured oral examination SOE Part Two of the definitive Primary FRCA structured oral examination revision aid with sample questions model answers and problem based answers to clinical scenarios

**ACLS Study Guide - E-Book** Barbara J Aehlert,2016-10-06 Awarded second place in the 2017 AJN Book of the Year Awards in the Critical Care Emergency Nursing category Provide the best possible emergency cardiovascular care using the newest ECC guidelines ACLS Study Guide 5th Edition offers a complete full color overview of advanced cardiovascular life support An easy to read approach covers everything from airway management to cardiac arrest rhythms and their management electrical therapy acute coronary syndromes and acute stroke In addition to the latest ACLS treatment algorithms this edition includes case studies and hundreds of full color photos and illustrations Case studies present common realistic clinical situations helping you learn and apply skills in cardiac rhythm interpretation medication administration and other essential interventions ACLS Pearls boxes offer brief explanations of complex topics and useful tips for clinical practice End of chapter quizzes include answers and rationales helping you learn and remember the most important information Easy to understand approach simplifies your study of advanced cardiac life support thanks to Barbara Aehlert s unique conversational writing style NEW UPDATED content centers on evidence based practice recommendations including the 2015 American Heart Association Guidelines for Cardiopulmonary Resuscitation and Emergency Cardiovascular Care and the 2015 International Consensus on Cardiopulmonary Resuscitation and Emergency Cardiovascular Care Science With Treatment Recommendations NEW Improved format integrates all case studies into the appropriate chapters so that you can apply concepts immediately to real world situations

**Catalog of Copyright Entries** Library of Congress.

Copyright Office,1975 **Pharmacotherapy Principles and Practice Study Guide 3/E** Michael D. Katz,Kathryn R.

Matthias,Marie A. Chisholm-Burns,2013-06-22 More than 100 cases teach how you how to apply pharmacotherapeutic concepts to real world clinical situations Pharmacotherapy Principles and Practice Study Guide Third Edition includes more

than 100 patient cases that correspond to chapters in the third edition of Pharmacotherapy Principles and Practice These cases are presented in realistic fashion using terms and abbreviations that would normally be found in a patient's medical record Patients in these cases have drug therapy problems requiring identification and management For each case you will be asked to develop a Patient Database Drug Therapy Problem Worksheet and Pharmacotherapy Care Plan using the forms provided With Pharmacotherapy Principles and Practice Study Guide you will learn how to navigate through the process of applying your knowledge of pharmacotherapy to specific patient cases by organizing patient data to logically assess a patient's medication issues and formulate a sound pharmacotherapy care plan EACH CASE INCLUDES Learning Objectives Patient Presentation Targeted Questions followed by hints that refer you to pages in Pharmacotherapy Principles and Practice Third Edition where you can find the information necessary to answer the question Follow Up Global Perspective which highlights an issue related to the case that is important to countries outside of North America or involves selected ethnic groups or races Case Summary Student Workup where you are asked to review the patient case for missing information and to complete the various patient forms Pharmacotherapy Principles and Practice Study Guide Michael D. Katz,Kathryn R. Matthias,Marie A. Chisholm-Burns,2010-12-17 A case based companion study guide to Pharmacotherapy Principles and Practice 2e learn how to apply your knowledge to actual patient situations Pharmacotherapy Principles and Practice Study Guide uses 98 cases to help you learn how to apply pharmacotherapeutic concepts to specific patient situations Each case is presented in a consistent manner similar to what you would see in a clinical setting and focuses on one primary topic or problem Patients discussed in these cases will have drug therapy problems requiring identification and management For each case you will be asked to develop a Patient Database Drug Therapy Problem Worksheet and Pharmacotherapy Care Plan using the forms provided These forms are adapted from those originally developed by the American Society of Health System Pharmacists Clinical Skills program Each case includes Learning Objectives Patient Presentation Targeted Questions followed by a hint that refers you to pages in Pharmacotherapy Principles and Practice 2e where you can find the information to answer the question Follow up Global Perspective which highlights an issue related to the case that is important to countries outside of North America or involve different ethnic groups or races Case Summary **Williams Obstetrics, a Study Guide** Charles R. B. Beckmann,Barbara M. Barzansky,Frank W.
