Necessary Conditions Geoff Krall,2023-10-10

During his years working as an instructional coach for a national network of schools Geoff Krall had the chance to witness several inspirational moments when math class comes alive for middle or high school students when it is challenging but also fun creative and interactive. In Necessary Conditions Teaching Secondary Math with Academic Safety Quality Tasks and Effective Facilitation Krall documents the essential ingredients that produce these sorts of moments on a regular basis and for all students. They are Academic Safety Quality Tasks and Effective Facilitation. Academic Safety Krall implements equitable classroom experiences that help fight stigmas associated with race and gender in schools. This allows students to feel socially and emotionally secure while nurturing their identities as mathematicians and increasing engagement during classroom discussions. Quality Tasks Teachers can adapt or create dynamic student centered lessons that break down math into small manageable sections removing the frustrations felt by students who aren't considered math people. Effective Facilitation This book shows how to incorporate teaching moves and math routines designed for engagement persistence and interactivity. Teachers can allow students to explore safely while maintaining consistent classroom expectations. My work as a math instructional coach for a network of schools has afforded me the unique opportunity to visit exceptional teachers across the country documenting their tasks teaching moves and academically safe learning environments. You'll experience dispatches from these effective classrooms in which we'll observe how teachers attend to all three elements that make up the ecosystem.
