Construction Project Management Sixth Edition Red Vector Bundle:

Construction Project Management Sixth Edition Red Vector Bundle S. Keoki Sears, Glenn A. Sears, Richard H. Clough, Jerald L. Rounds, Robert O. Segner, 2015-04-13 Build a solid project management foundation with this classic reference and online course. The Construction Project Management Sixth Edition Red Vector Bundle offers complete coverage of construction planning and scheduling bundled with a dynamic online credit course from Red Vector. This book has been the construction industry's preeminent reference for over three decades, providing complete expert guidance to all aspects of construction project management, including the Critical Path Method of scheduling. This updated sixth edition features new chapter questions and a full suite of instructor's resources, new information on the Earned Value Analysis System, and introductory coverage of Building Information Modeling and Lean Construction. Follow along with two example projects, one civil, one commercial, and develop them from the ground up as you learn how to lead a team, control risk, and manage project quality from the leading authorities in the field. Managing a construction project means juggling multiple demands from proposals and negotiations to scheduling, budgeting, and safety. This book shows you how to wear the manager's many hats and keep the project running smoothly and on target. Learn the principles and skills of effective project management. Understand the complex planning and scheduling process. Get up to date on EVA, BIM, and Lean Construction. Apply these concepts to both civil and commercial projects. The demand for qualified construction project managers is increasing, as is the need for greater efficiency in cost and time as construction projects grow ever larger and more complex. The Construction Project Management Sixth Edition Red Vector Bundle combines a comprehensive reference and a concise online course to give you a solid foundation in modern project management techniques.

Construction Project

Scheduling and Control Saleh A. Mubarak, 2015-04-13 Written by a career construction professional, this text about scheduling and project control addresses the average student, detailing all the steps clearly and without shortcuts. And now, for the first time, the book is part of a learning package that comes with access to an online course built around the book, provided by online training leader Red Vector. Solved and unsolved exercises cover all subjects and computer software programs for construction are included for each chapter. The book, and by extension the class, presents precedence networks as the realistic solution to scheduling, the main part of project control, and introduces new concepts in CPM scheduling, such as the author's own Dynamic Minimum Lag technique. The new edition includes coverage of building image modeling, BIM, lean construction, sustainability, and other cutting edge construction topics.
