

New .22-.45 SERVICE MODEL CONVERSION UNIT

With Floating Chamber

for Converting the Colt Government Model and National Match Model to Caliber .22 Long Rifle

This unit has been designed to make possible the use of .22 Long Rifle Ammunition . . . utilizing the regular receiver and parts of the Colt Government Model Automatic Pistol, Caliber .45, and the National Match Model. The Unit parts may be easily interchanged with the regular .45 caliber parts in a very few minutes.

The Colt .22-45 Conversion Unit makes target practice possible at approximately *one-seventh* the cost of .45 caliber shooting . . . and in addition provides an efficient target practice arm that is ideal for new shooters.

The floating chamber with which this unit is equipped, produces a recoil that is approximately *four times* the recoil of the regular Ace. This is advantageous because of the similarity of shooting conditions encountered when firing the heavy caliber ammunition. All parts included in the .22-45 Unit are illustrated at the left.
