**The Power of Comics** Randy Duncan, Matthew J. Smith, 2009-07-01 A comprehensive introduction to the comic arts From the introduction by Paul Levitz If ever there was a medium characterized by its unexamined self expression it's comics For decades after the medium's birth it was free of organized critical analysis its creators generally disinclined to self analysis or formal documentation The average

reader didn't know who created the comics how or why and except for a uniquely destructive period during America's witch hunting of the 1950s didn't seem to care As the medium has matured however and the creativity of comics began to touch the mainstream of popular culture in many ways curiosity followed leading to journalism and eventually scholarship and so here we are The Power of Comics is the first introductory textbook for comic art studies courses Lending a broader understanding of the medium and its communication potential it provides students with a coherent and comprehensive explanation of comic books and graphic novels including coverage of their history and their communication techniques research into their meanings and effects and an overview of industry practices and fan culture Co authors Randy Duncan and Matthew J Smith draw on their own years of experience teaching comics studies courses and the scholarly literature across several disciplines to create a text with the following features Discussion questions for each chapter Activities to engage readers Recommended reading suggestions Over 150 illustrations Bibliography Glossary The Power of Comics deals exclusively with comic books and graphic novels One reason for this focus is that no one text can hope to do justice to both strips and books there is simply too much to cover Preference is given to comic books because in their longer form the graphic novel they have the greatest potential for depth and complexity of expression As comic strips shrink in size and become more inane in content comic books are becoming a serious art form *Then This Happened...* Tom Ray, 2017-11-05 This is a daily cartoon journal I wanted to get back into creating comics and animation However the day I started we found out my wife has breast cancer I could have just given up But I needed to do something to help me deal with the news So I drew It's nothing special the first one was just a drawing I did on my phone But it felt so therapeutic to draw what I felt that day I kept drawing something each day to help me deal with it Each day is different like life We have good days and bad just like everybody But I enjoy having this outlet to express myself This book is a collection of our lives and dealing with breast cancer during the first 4 months *You Can't Say Boobs on Sunday* Jan Eliot, 1999 Telling the story of two single moms who are also sisters the humor of Stone Soup is of the too real you must be a fly on my wall variety Readers see themselves and their families in Stone Soup and they love it Anyone who's ever had a family been in a family or known a family will love it
