## Common Core Slo Math Problem Solving:

Implementing the Common Core State Standards Through Mathematical Problem Solving Mary Q. Foote, Darrell Earnest, Shiuli Mukhopadhyay, 2014 The 38 problems and tasks for students in this book are organized into the major areas of the Common Core for grades 3-5: operations and algebraic thinking, number and operations in base ten, fractions, measurements and data, and geometry. For each task, teachers will find a rich, engaging problem or set of problems to use as a lesson starting point, with accompanying discussions that tie the tasks to specific Common Core domains and clusters. Follow-up sections highlight the CCSS Standards for Mathematical Practice students will engage in as they work on these problems.
