ALGEBRAIC EXPRESSIONS & PROPERTIES

A **variable** is a symbol that is used to represent an unknown quantity. An **algebraic expression** is a mathematical expression that contains one or more variables, one or more numbers, and one or more arithmetic operations.

Writing Expressions

Verbal expressions can be translated into algebraic expressions.

| Verbal Expression | Algebraic Expression |
|---|----------------------|
| a number decreased by 15 | $n - 15$ |
| 8 less than 3 times a number | $3n - 8$ |
| the quotient of a number and 2 plus 5 times the number | $\frac{n}{2} + 5n$ |
| 6 more than the cube of a number | $n^3 + 6$ |
| a number increased by 3, quantity squared, divided by 5 | $\frac{(n+3)^2}{5}$ |

Order of Operations

The order of operations is a set of rules that determines which operations to perform first when evaluating a numerical expression.

1. Evaluate within grouping symbols.
2. Evaluate all powers.
3. Multiply and divide from left to right.
4. Add and subtract from left to right.

Properties of Real Numbers

For real numbers a , b , and c , the following properties are true.

| Property | Description | Symbolically |
|--|-------------|--|
| Commutative Property of Addition | | $a + b = b + a$ |
| Commutative Property of Multiplication | | $a \cdot b = b \cdot a$ |
| Associative Property of Addition | | $a + (b + c) = (a + b) + c$ |
| Associative Property of Multiplication | | $a \cdot (b \cdot c) = (a \cdot b) \cdot c$ |
| Distributive Property | | $a \cdot (b + c) = a \cdot b + a \cdot c$ |
| Additive Identity Property | | $a + 0 = a$ |
| Additive Inverse Property | | $a + (-a) = 0$ |
| Multiplicative Inverse Property | | $a \cdot \left(\frac{1}{a}\right) = 1, a \neq 0$ |
| Multiplicative Property of Zero | | $a \cdot 0 = 0$ |

Properties of Equality & Substitution

For real numbers a , b , and c , the following properties are true.

| Property | Description | Symbolically |
|-----------------------|--|--|
| Reflexive Property | A number or quantity is equal to itself. | $a = a$ |
| Symmetric Property | If a quantity is equal to another quantity, then the second quantity is equal to the first quantity. | If $a = b$, then $b = a$. |
| Transitive Property | If a quantity equals a second quantity and the second quantity equals a third quantity, then the first quantity equals the third quantity. | If $a = b$ and $b = c$, then $a = c$. |
| Substitution Property | If two quantities are equal, then one quantity may be substituted for the other in an expression. | If $a = b$, then b can be substituted for a in an expression, and vice versa. |

Parts of an Expression

A **term** is a number, variable, or the product of numbers and variables in an expression. Like terms are terms that have the same variables raised to the same powers. Two quantities that are being multiplied in an expression are called **factors**. The coefficient of a term is the numerical factor of the term. A term that consists of a number and no variables is called a **constant**.

- EX:** Identify the terms, factors, and coefficients in the expression $-6n^2 + 4n - 2n$.
1. There are 3 terms: $-6n^2$, $4n$, and $-2n$.
 2. The terms $4n$ and $-2n$ are like terms because they have the same variable raised to the same power.
 3. The factors of the terms are -6 , n , and n for the first term, 4 and n for the second term, and -2 and n for the third term.
 4. The coefficients of the terms are -6 , 4 , and -2 .

EX: To compute annual compound interest, you multiply the principal investment by the quantity of one plus the interest rate, raised to the number of years of compounding. Define quantities and write an expression to model compound interest. Describe the parts of the expression.

1. Define variables.
Let P represent the principal investment, let r represent the interest rate, and let n represent the number of years.
2. Translate the verbal expression into an algebraic expression.
"multiply the principal": P
"quantity of one plus the interest rate, raised to the number of years": $(1 + r)^n$
The expression is $P(1 + r)^n$.
3. Describe the parts of the expression.
The expression contains two factors: P and $(1 + r)^n$. The first factor is the variable P . The second factor contains the variables r and n .

REASONING WITH QUANTITIES

The units of a quantity can help you understand and solve multi-step problems.

Dimensional Analysis

Dimensional analysis is the process of using conversion factors to change from one set of units to another set of units.

- EX:** Jamie jogged 495 feet in 45 seconds.
What was her speed in miles per hour?
Write the given information as a ratio.
Then use appropriate conversion factors to change units.

$$\frac{495 \cancel{ft}}{45 \cancel{s}} \cdot \frac{1 \cancel{mi}}{5280 \cancel{ft}} \cdot \frac{1 \cancel{hr}}{3600 \cancel{s}} = \frac{1 \cancel{mi}}{480 \cancel{s}}$$

Convert from feet to miles.

$$\frac{1 \cancel{mi}}{480 \cancel{s}} \cdot \frac{60 \cancel{min}}{1 \cancel{min}} \cdot \frac{1 \cancel{hr}}{60 \cancel{min}} = \frac{1 \cancel{mi}}{8 \cancel{min}}$$

Convert from seconds to minutes.

$$\frac{1 \cancel{mi}}{8 \cancel{min}} \cdot \frac{60 \cancel{min}}{1 \cancel{hr}} = \frac{7.5 \cancel{mi}}{1 \cancel{hr}}$$

Convert from minutes to hours.

Jamie's speed was 7.5 miles per hour.

Modeling with Appropriate Units

When modeling with quantities, it is important to choose appropriate units.

| Quantity | Common Units |
|--------------------|--|
| length or distance | millimeter (mm), centimeter (cm), meter (m), kilometer (km), inch (in.), foot (ft), yard (yd), mile (mi) |
| mass or weight | centigram (cg), gram (g), kilogram (kg), ounce (oz), pound (lb), ton (T) |
| capacity or volume | milliliter (mL), liter (L), kiloliter (kL), fluid ounce (fl oz), cup (c), pint (pt), quart (qt), gallon (gal), cubic centimeters (cm ³), cubic meters (m ³), cubic inches (in. ³), cubic feet (ft ³), cubic yards (yd ³) |
| area | square millimeters (mm ²), square centimeters (cm ²), square meters (m ²), square kilometers (km ²), square inches (in. ²), square feet (ft ²), square yards (yd ²), square miles (mi ²) |

Accuracy & Precision

Accuracy describes how close a measured value is to the actual value.

- EX:** Thomas is 5 feet 10.25 inches tall. A measurement of 5 feet 10 inches is more accurate than a measurement of 6 feet when describing his height.

Precision describes the exactness of a measurement and is dependent on the unit of measure. The **precision unit** is the smallest unit on the tool being used to measure. As the units of measurement get smaller, the measurement gets more precise.

- EX:** A ruler that measures in millimeters is more precise than a ruler that measures in centimeters.

EX: For a scale that gives weight in pounds and ounces, the precision unit is ounces.

Just because a measure is more precise, does not mean it is more accurate.

- EX:** The actual length of a block of wood is 3 feet. A measurement of 3 feet 3 inches is more precise than a measurement of 4 feet, but it is less accurate than 4 feet which is closer to the actual length of 3 feet.

Math Practice 6: Attend to precision.

When solving multi-step problems, it is important to communicate precisely to others. This includes using appropriate units of measure, calculating accurately, and expressing numerical answers with an appropriate degree of precision.

Common Core Algebra Student Guide Answers Introduction

In the digital age, access to information has become easier than ever before. The ability to download Common Core Algebra Student Guide Answers has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Common Core Algebra Student Guide Answers has opened up a world of possibilities. Downloading Common Core Algebra Student Guide Answers provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Common Core Algebra Student Guide Answers has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Common Core Algebra Student Guide Answers. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Common Core Algebra Student Guide Answers. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Common Core Algebra Student Guide Answers, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Common Core Algebra Student Guide Answers has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so,

individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

FAQs About Common Core Algebra Student Guide Answers Books

1. Where can I buy Common Core Algebra Student Guide Answers books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
2. What are the different book formats available? Hardcover: Sturdy and durable, usually more expensive. Paperback: Cheaper, lighter, and more portable than hardcovers. E-books: Digital books available for e-readers like Kindle or software like Apple Books, Kindle, and Google Play Books.
3. How do I choose a Common Core Algebra Student Guide Answers book to read? Genres: Consider the genre you enjoy (fiction, non-fiction, mystery, sci-fi, etc.). Recommendations: Ask friends, join book clubs, or explore online reviews and recommendations. Author: If you like a particular author, you might enjoy more of their work.
4. How do I take care of Common Core Algebra Student Guide Answers books? Storage: Keep them away from direct sunlight and in a dry environment. Handling: Avoid folding pages, use bookmarks, and handle them with clean hands. Cleaning: Gently dust the covers and pages occasionally.
5. Can I borrow books without buying them? Public Libraries: Local libraries offer a wide range of books for borrowing. Book Swaps: Community book exchanges or online platforms where people exchange books.
6. How can I track my reading progress or manage my book collection? Book Tracking Apps: Goodreads, LibraryThing, and Book Catalogue are popular apps for tracking your reading progress and managing book collections. Spreadsheets: You can create your own spreadsheet to track books read, ratings, and other details.
7. What are Common Core Algebra Student Guide Answers audiobooks, and where can I find them? Audiobooks: Audio recordings of books, perfect for listening while commuting or multitasking. Platforms: Audible, LibriVox, and Google Play Books offer a wide selection of audiobooks.
8. How do I support authors or the book industry? Buy Books: Purchase books from authors or independent bookstores. Reviews: Leave reviews on platforms like Goodreads or Amazon. Promotion: Share your favorite books on social media or recommend them to friends.
9. Are there book clubs or reading communities I can join? Local Clubs: Check for local book clubs in libraries or

community centers. Online Communities: Platforms like Goodreads have virtual book clubs and discussion groups.

10. Can I read Common Core Algebra Student Guide Answers books for free? Public Domain Books: Many classic books are available for free as they're in the public domain. Free E-books: Some websites offer free e-books legally, like Project Gutenberg or Open Library.
