Bartlett, 2000 What Indian Companies must do to Become World Class *Managing Radical Change* What Indian Companies Must Do to Become World Class looks at what companies in India must do not just to survive but to rank among the best in their strategy organization and management According to internationally acclaimed management gurus Sumantra Ghoshal and Christopher A Bartlett and industry insider Gita Piramal the problem is not that managers are unaware of the need for a radical response to the problems and challenges posed by the new competitive technological and market demands in India But trapped in an incrementalist mindset that change can come only by degrees deep in their heart they do not feel the urgency that they profess Without the energy of their own convictions what chance do these managers have of leading change in their organizations That is the fundamental premise behind this book as well as its key purpose to make managers believe really believe that radical performance improvement is possible Ghoshal Piramal and Bartlett feel that managers are the best teachers of managers and so *Managing Radical Change* is a distillation of lessons offered by people as diverse as N R Narayana Murthy and Brijmohan Lall Munjal Keki Dadiseth and Dhirubhai Ambani Azim Premji and Rohinton Aga Lakshmi Niwas Mittal and Subhash Chandra Rahul Bajaj and Parvinder Singh There is a wealth of information on the best companies in India and worldwide among them Infosys Wipro Reliance Hindustan Lever GE and ABB Lucidly written and brilliantly argued *Managing Radical Change* is an invaluable roadmap for Indian executives on their journey towards excellence and perhaps the most significant contribution to Indian management literature in recent times A pervasive disease afflicts corporate India It is called satisfactory underperformance a state in which a company continues to make money but gradually loses its competitive edge as a complacent management fails to ask itself what it is doing to value add The crisis comes as it must and the company suddenly finds itself in a situation where it is fighting for its survival

Dimensions of Radical Democracy Chantal Mouffe, 1992 The themes of citizenship and community are today at the center of a fierce debate as both left and right try to mobilize them for their cause For the left such notions are crucial in all the current attempts to redefine political struggle through extending and deepening democracy But argue the contributors to this volume these concepts need to be made compatible with the pluralism that marks modern democracy Rather than reject the liberal tradition they argue the aim should be to radicalize it These essays set out to examine what types of citizen and

community might be required by such a radical and plural democracy From a range of disciplines and a fruitful diversity of theoretical perspectives the contributors help us to address the following challenge how to defend the greatest possible pluralism without destroying the very framework of the democratic political community Despite their differences a vision emerges from these essays which is sharply at odds both with the universalistic and rationalistic conception to be found in the work of Habermas and with postmodern celebrations of absolute heterogeneity For this book is an exploration of politics of a politics where power conflict and antagonism will always play a central role Carr V.
