By
The Trend "E" Teacher

Product Description:

Students will use these as a center activity. Students will practice their knowledge of decimals for each task card. Students will record their answers on Answer Sheet provided. Also, you may decide to play the game SCOOT. During this activity, students will stand up and move to where different cards are located. Timer will be used by teacher where students will "SCOOT" to the next card when the timer goes off. I suggest that teachers insert in card stock and have these laminated. The initial work will pay off given that you will be able to use these year after year.

Towards Deeper Learning in Primary CLIL Fay Chen, 2025-03-04 Chen proposes a disciplinary literacy (DL) approach to Content and Language Integrated Learning (CLIL) planning and teaching in her book in answer to concerns expressed by some about the growth of CLIL internationally in recent decades. The concerns regarding CLIL schools circle around the feasibility of the policy, particularly regarding the challenges of teaching and learning new subject content in an additional language in primary education. In response, the author tackles the fundamental questions surrounding CLIL implementation with a focus on fostering deeper learning using examples from the Taiwanese context. The chapters delve into the key planning issues in primary education CLIL and explore the language teaching awareness of CLIL teachers in various subject areas. In addition to proposing a DL approach, the book also discusses the necessity for teachers' awareness of subject specific literacies in curriculum planning, highlighting the importance of scaffolding primary students to achieve deeper learning in CLIL classrooms. As a whole, Chen stimulates discourse and research in CLIL planning and teaching, thereby informing CLIL teacher education. This book is an essential read for researchers and research students interested in deeper learning and
