Okay, why a book of nothing but tips? Because that's where all the really slick, really useful and really fun stuff is. It's true. If we're looking through a book and we see the word "Tip" we're all immediately drawn to it because we know we're about to learn something great. Maybe it's an undocumented keyboard shortcut, a hidden inside secret, or just a faster, better way to do something we do every day. The only problem with the tips in these books is that there are never enough of 'em. That

is until now That's because this book is packed cover to cover wall to wall with nothing but those cool Photoshop CS2 sidebar tips Every tip is designed to make you work faster smarter and have more fun using Photoshop CS2 There are no detailed descriptions of CMYK separation set ups or long boring discussions on color management theory It's just tips short sweet and to the point But we've done the tip idea one better because every tip has a full color graphic to make the tips even more accessible even more fun and even easier to use Most importantly to get in this book they've got to be Killer Tips The kind of tip that makes you smile nod and then call all your friends and tune them up with your new status as Photoshop guru If you've wondered how the pros get twice the work done in half the time it's because they know all the tips and all the tricks Now with this book so will you     *Imported fire ant, 1983-May 1987* Evelyn A.
