[Information Retrieval Evaluation in a Changing World](#) Nicola Ferro,Carol Peters,2019-08-13 This volume celebrates the twentieth anniversary of CLEF the Cross Language Evaluation Forum for the first ten years and the Conference and Labs of the Evaluation Forum since and traces its

evolution over these first two decades CLEF's main mission is to promote research innovation and development of information retrieval IR systems by anticipating trends in information management in order to stimulate advances in the field of IR system experimentation and evaluation. The book is divided into six parts. Parts I and II provide background and context with the first part explaining what is meant by experimental evaluation and the underlying theory and describing how this has been interpreted in CLEF and in other internationally recognized evaluation initiatives. Part II presents research architectures and infrastructures that have been developed to manage experimental data and to provide evaluation services in CLEF and elsewhere. Parts III IV and V represent the core of the book presenting some of the most significant evaluation activities in CLEF ranging from the early multilingual text processing exercises to the later more sophisticated experiments on multimodal collections in diverse genres and media. In all cases the focus is not only on describing what has been achieved but above all on what has been learnt. The final part examines the impact CLEF has had on the research world and discusses current and future challenges both academic and industrial including the relevance of IR benchmarking in industrial settings. Mainly intended for researchers in academia and industry it also offers useful insights and tips for practitioners in industry working on the evaluation and performance issues of IR tools and graduate students specializing in information retrieval.

Hermann Hesse's Global Impact Oscar Von Seth, 2024 A timely collection of new essays arguing for the continuing relevance and impact of Hesse's works around the world. Hermann Hesse remains one of the great figures of world literature. He is the world's 35th most translated author with more than 1 500 translations of his works currently listed on UNESCO's Index Translatorium. Our understanding of the reciprocal transcultural reception of literature has been radically transformed in the last two decades starting with David Damrosch's *What is World Literature* 2003. Meanwhile some forty years have passed since Martin Pfeifer's anthology *Hermann Hesses weltweite Wirkung*. Hermann Hesse's Worldwide Impact was published which means it is time to consider Hesse's global impact again though not in terms of a country by country study. Rather this book explores Hesse's continuing global relevance more broadly. Hesse is global in the sense that his themes touch on the non material side of human existence in a way that readers in different cultural communities respond to. His prose and poetry offer an oasis of calm authenticity and spirituality a mental terrain of profound and genuine meaning. The present collection of new essays argues that this spiritual capital may help readers of Hesse in uncertain times beyond the doctrines of organized religions or ideologies assisting them in inhabiting creatively both the world of literature and the visceral world of the early 21st century.
