Devereaux,2014-10-17 Standardized tests demand Standard English but secondary students grades 6 12 come to school speaking a variety of dialects and languages thus creating a conflict between students language of nurture and the expectations of school The purpose of this text is twofold to explain and illustrate how language varieties function in the

O'Malley, 2017-03-01 Focusing on literary and cultural texts from the late eighteenth century to the early twentieth Patrick R O Malley argues that in order to understand both the literature and the varieties of nationalist politics in nineteenth century Ireland we must understand the various modes in which the very notion of the historical past was articulated He proposes that nineteenth century Irish literature and culture present two competing modes of political historiography one that eludes the unresolved wounds of Ireland's violent history through the strategic representation of a unified past that could be the model for a liberal future and one that locates its roots not in a culturally triumphant past but rather in an account of colonial and specifically sectarian bloodshed and insists upon the moral necessity of naming that history From myths of pre Christian Celtic glories to medieval Catholic scholarship to the rise of the Protestant Ascendancy to narratives of colonial violence against Irish people by British power Irish historiography strove to be the basis of a new nationalism following the 1801 Union with Great Britain and yet it was itself riven with contention
