Invisible Leviathan Murray Smith,2018-11-05 In this updated and expanded edition of *Invisible Leviathan* Murray E G Smith critically explores and makes significant contributions to the debate surrounding Karl Marx's capitalist law of value and its corollary the law of the falling rate of profit A powerful case is presented that capitalism has exhausted its potential to contribute to human progress Humanity confronts a fateful choice to allow this obsolescent system which necessarily measures wealth in terms of abstract social labour and money profit to

destroy human civilisation or to make the leap toward a global egalitarian socialist society in which the satisfaction of human need is the starting point and the all round development of each and every human individual the goal of the socio economic life process First printed in 1994 as *Invisible Leviathan The Marxist Critique of Market Despotism Beyond Postmodernism* by University of Toronto Press This second and revised edition includes a new Foreword by Michael Roberts and a Preface to the Second Edition
