Capstone Final Exam Part One:

Connecting Adult Learning and Knowledge Management Monica Fedeli, Laura L. Bierema, 2019-11-25 This multidisciplinary book represents an initial attempt to connect adult learning and knowledge management in theory and practice. It provides educators, learners, and organizational development professionals with new strategies and resources for developing active and effective pedagogies which in turn prepare learners and practitioners to manage knowledge in organizations and higher education. To do so, it gathers contributions and case studies from a diverse global team of authors and provides a theoretical and practical outline of new strategies and methods for facilitating adult teaching and learning. It also provides a fresh reading of active learning methods by adopting a knowledge management viewpoint that is broadly applicable whether helping students master content in university courses or helping organizations learn and change. The book is divided into three main sections: a) methods and theories for adult teaching and learning; b) knowledge management in education; and c) case studies and best practices that consider classroom learning, higher education, change, and organization development.

[Public Sociology Capstones](#) Martin Tolich, 2018-04-17 Social science departments both nationally and internationally market boundless career destinations for their graduates but fail to identify the pathways to these lucrative destinations and appear oblivious to the social forces that threaten their existence such as the discerning parent's investment in their offspring's education and mounting individual student debt. This book responds to these social forces drawing on Michael Burawoy's model of Public Sociology to show how a research centred experiential internship provides opportunities for students to draw on their prior learning and realise their potential to create pathways towards employment. The author demonstrates how a specific research based course leading to employment with a

non government organisation or government department was evaluated and incrementally developed giving voice to its multiple beneficiaries Designed for university teachers this book will appeal to those in social science departments who are using an internship service learning or capstone model for their senior undergraduate classes Flipping the Classroom with Experiential and Community-Engaged Learning in Business Mehtap Aldogan Eklund,Kenneth W.
