Schwieger,2004 The main topic of this book is the introduction of a new mobility service One Way and Open End car sharing  
Dr Bodo Schwieger describes a process starting from the anticipation and measurement of customer s needs to the  
introduction of innovative services The described field test is second to none as it offers gasoline vehicles in a One Way rental  
scheme within an urban environment 25 Smart vehicles were based at 8 stations and available to 4 000 car sharing  
customers This service is being analyzed for efficiency and customer reactions In a second step other car sharing companies  
in Hamburg Germany Seattle Washington Kyoto and Tokyo Japan are analyzed for their approaches to improving their  
services combines technological competence marketing know how and customer analysis Car sharing has recently become a  
highly relevant topic with the fast expansion of the American providers and the market entry of Deutsche Bahn AG and Shell  
AG in Germany The method respects the large amount of interdependence with other services and also the multiplicity of  
different customer groups Thus it can be transferred to other transportation services and used as a beginner s guide to  
service analysis The book is based on the author s dissertation which was accepted at the Technical University of Berlin in  
2003 It delivers on 150 pages densely accumulated information It is worth reading for anyone who is involved in introducing  
and developing new services either within transportation or in related branches    **Automotive Industries, the**
