Close Relationships Close Relationships:

Close Relationships Clyde Hendrick, Susan S. Hendrick, 2000-02-17 The authors in the volume extend the reach of their comprehensive reviews into theoretically driven and innovating explorations. The scope of coverage across and within chapters is striking. The developmentalist, the methodologist, the feminist, the contextualist, and the cross culturalist alike will find satisfaction in reading the chapters. Catherine A. Surra (The University of Texas at Austin) The science of close relationships is relatively new and complex. *Close Relationships: A Sourcebook* represents the growing maturity of this multidisciplinary enterprise. The volume offers 26 chapters organized into four thematic areas: relationship methods, forms, processes, and threats, as well as a foreword and an epilogue. The volume provides a panoramic view of close relationship research as it enters the 21st century, offering highlights from current literature, original research, practical applications, and projections for future research. *Relationship Methods* includes both qualitative and quantitative chapters. *Relationship Forms* includes many of the stages, types, and roles that characterize intimate relationships. In a developmental fashion, chapters address social networks, children's friendships, adolescent relationships, adult friendships, and friendships in later life. Chapters on multicultural and multiracial relationships, and gay, lesbian, and bisexual relationships, illustrate the variety of relationship forms that the science of close relationships must consider. The alignments and realignments of traditional family structure are considered in terms of contemporary marriage, divorce, and single parenting, and remarried families. *Relationship Processes* includes chapters on emotion attachment, romantic love, sexuality, intimacy, communication, conflict, social support, and relational maintenance. The important topic of gender concludes the section. The shadow side of human nature is explored in the *Relationship Threats* section, with chapters on infidelity and jealousy, physical and sexual aggression, depression, and loss, and bereavement. A foreword by Ellen Berscheid sets the stage for this broad ranging collection of chapters. Steve Duck and Linda Acitelli conclude with an epilogue that provides a new beginning for the science of close relationships.

Satisfaction in Close Relationships Robert J. Sternberg, Mahzad Hojjat, 1997-06-27 With the premise that close relationships are subjected to extraordinary scrutiny in contemporary society, the authors go on to say that this generation values individual fulfillment more than any before us. We are able to leave existing relationships with relative ease, demand a high level of satisfaction from our intimate relationships, and are frustrated at those times when we fail to achieve it. This volume presents a range of theoretical and clinical approaches to understanding and promoting relationship satisfaction. Integrating findings from social, clinical, and counseling psychology researchers illuminate what it means to be satisfied within a love relationship and identify the factors that allow couples to create successful relationships over time.

The stories illustrate the research and theory making them come alive for the reader. **Self-representations in Close Relationships** Jennifer Suzanne Beer, 1999 Power in Close Relationships

Christopher R. Agnew, Jennifer J. Harman, 2019-02-28 Power is an inherent feature of social interactions yet it is hard to define and therefore understand. This book is the first to organize current interdisciplinary theorizing and research about power from leading academics in areas such as social psychology, communications, family studies, and public health. It also focuses exclusively on how power operates and affects close relationship processes while the theoretical insights provided point the way toward new lines of research and understanding. Using specific examples to illustrate complex theoretical explanations and supplying thorough descriptions of the existing literature on power in close relationships, this book is an essential resource for researchers, professionals, students, or laypeople seeking to better understand how power operates in those relationships that are most important to us. **Social Influence on Close Relationships** Christopher R.

Agnew, 2014-10-09 How do we choose a partner to initiate a relationship with and what makes us stay in a given relationship over time? These questions are most often pursued by scholars with an emphasis on the internal thoughts, feelings, and motivations of individual decision makers. Conversely, this volume highlights the importance of considering external influences on individual decision making in close relationships. Featuring contributions from internationally renowned scholars, the volume is divided into two interrelated sections. The first section considers global and societal influences on romantic relationships and the second focuses on social network and communicative influences on romantic relationships. Taken together, this collection helps us to better understand how external factors influence the internal machinations of those involved in intimate relationships.
