## **Close Encounters Of The Fourth Kind:**

**Close Encounters Of The Fourth Kind** C.D.B. Bryan, 2011-11-02 Close Encounters of the Fourth Kind cases in which personal contact between an individual or individuals is initiated by the occupants of the spacecraft. Such contact may involve the transportation of the individual from his or her terrestrial surroundings into the spacecraft where the individual is communicated with and or subjected to an examination before being returned. One might expect that a scientific conference devoted to people who have reported being kidnapped by little green men would be dismissed out of hand. But C D B Bryan the greatly admired journalist and author of *Friendly Fire* did not dismiss it. The conference was to be held at the Massachusetts Institute of Technology and would have as its chairmen a Pulitzer Prize winning Harvard psychiatry professor and a professor of physics from MIT. Bryan attended the conference throughout its five days. He approached the subject with no prior stand, no agenda and an open if slightly skeptical mind. As the conference progressed he was astonished by the quality of the stories told by the hundreds of men and women who came forward hesitantly and reluctantly with their utterly amazing and utterly convincing accounts of having been abducted and then examined aboard extraterrestrial spacecraft by spindly limbed telepathic gray creatures with outsized foreheads dominated by huge compelling tear shaped black eyes. What most astonished Bryan were the similarities found again and again in these accounts and the consistency of their details. It is here that the heart of the mystery lies as the Harvard professor John E Mack asked at the conference. If what the abductees are saying isn't happening to them then what is? This question and the possible answers are at the center of this richly explicit serious and riveting book. Bryan recreates the conference. He interviews ufology's most prominent psychiatrists, psychologists, hypnotherapists, researchers, physicists, physicians and folklorists. He interweaves throughout the testimony of the abductees themselves who tell us their stories in chilling detail. He presents in depth the Close Encounter experiences of two women whose stories he tells on the basis of both their spontaneous recollections of the events and their memories that were retrieved through sessions of hypnosis of which Bryan himself was a witness. Finally Bryan examines the current theories: psychological, psychiatric, medical, parapsychological that have been put forward by the unconvinced to explain the abduction phenomenon. Are the abductees suffering from some sort of false memory syndrome, a multiple or dissociative personality disorder? Are they fantasy prone? *Close Encounters of the Fourth Kind* is a detailed, objective exploration, the most concrete to date, of one of the enduring and amazing mysteries of our time. It is a book that will equally fascinate believers and nonbelievers.

**Close Encounters of the Fourth Kind** C. D. B. Bryan, 2001-04-01 A serious explicit riveting investigation into the bizarre world of UFOs and alien abduction. At its center is a 5 day UFO conference at MIT under the chairmanship of a physicist from MIT and a psychiatrist from Harvard. For 5 days a mixed group of delegates asked the questions: Do UFOs exist? Is it possible to believe that aliens have landed on earth and abducted ordinary men and women to experiment on them? Bryan attended the conference and met, interviewed and listened to the testimony of psychiatrists, researchers,

hypnotherapists physicists and folklorists Includes the experiences of abductees who came forward to tell their stories in chilling detail      **Close Encounters of the Fourth Kind** C. D. B. Bryan,1995 Alien abduction what the scientists think This book will fascinate equally believers and non believers alike      **Close Encounters of the Fourth Kind** C. D. B. Bryan,1995
