

Transcript of a Speech from the Closing Ceremony of the XV International AIDS Conference (AIDS 2004)

By Nelson Mandela
From Henry J. Kaiser Family Foundation

July 16, 2004

Thank you again for asking me to participate in the closing ceremony of your International AIDS Conference. It seems that I have reached a level of seniority, which entitles me to participate in closing ceremonies.

Despite the fact that I am an old age pensioner with no power and with even less influence, as you will know I have announced my retirement from public life, which means that I should not be here today. However, the fight against AIDS is one of the greatest challenges the world faces at the start of the 21st century. I cannot rest until I'm certain that the global response is sufficient to turn the tide of the epidemic. The importance of tackling this issue should not be undermined by the many other problems that confront a global society today. In the course of human history there has never been a greater threat than the HIV/AIDS epidemic. Our attention to this issue cannot be distracted or diverted by problems that are apparently more pressing. History will surely judge us harshly if we do not respond with all the energy and resources that we can bring to bear in the fight against HIV/AIDS. Last night we introduced you to our 46664 sexual campaign. We reminded you how they are [Inaudible] to reduce us to prison numbers and so reduce our humanity. We were kept alive by our strong sense of hope and the firm knowledge that the world would not forget us.

Presidency Henriette Müller,2020 The EU's pluralistic nonhierarchical system of multilevel governance lacks clear structures of both government and opposition According to the EU treaties the presidency of the European Commission is thus not explicitly expected to exercise political leadership However the position cannot effectively be exercised without any demonstration of such leadership due to its many leadership functions Examining this curious mix of strong political demands weak institutional powers and need for political leadership this book systematically analyses the political leadership performance of the presidents of the European Commission throughout the process of European integration The basic argument is that Commission presidents matter not only in the process of European integration but that their impact varies according to how the different incumbents deal with the institutional structure and the situational circumstances and thus their available strategic choices The primary research question is thus What makes political leadership in European governance successful and to what extent and why do Commission presidents differ in their leadership performance In addressing this question this book departs from existing research on EU leadership which has to date often analysed either the EU's institutional structure and its potential for leadership or mainly focused on only the most recent incumbents in case study analyses Focusing on the multiterm European Commission presidents Walter Hallstein Jacques Delors and Jos Manuel Barroso this book conceptualizes their political leadership as a performance and thus systematically analyzes their agenda setting mediative institutional and public outreach performance over the entire course of their presidential terms [The Complete Advocate](#) Ronnie K. Boodoosingh,2013-07-03 The Complete Advocate is a comprehensive guide to the advocate from the beginning of a case to its end This book covers the essential skills needed to perform well as an advocate including research writing time management client interviewing and public speaking Technical topics such as examination in chief cross examination civil and criminal applications opening and closing speeches appellate advocacy court etiquette traditions and ethics for lawyers are also examined The author adopts a practical approach to the topics giving many examples to guide beginner advocates **Political Campaign Communication** Robert E. Denton,Judith S. Trent,Robert V. Friedenberg,2019-07-19 Political Campaign Communication Ninth Edition uses a speech communication perspective to examine how elective politics contributes to our knowledge and understanding of the electoral process This book explains

how principles and practices central to election campaigns affect America's electoral history History of the Graeco-Latin Fable Francisco Rodríguez Adrados, 1999 Spanning from Sumer to the present day few literary genres show greater continuity throughout their history than the fable. Historical evidence reaching as far back as Antiquity supports the study of more than 500 works considered to be fables. This translation of the original Spanish standard work on the fable traces the history of the Graeco Latin fable, investigates its origins, reconstructs lost collections from the Hellenistic Age and establishes relationships between the fablist of the Imperial Age and the study of Medieval Greek and Latin fables. Supplements at the end of each chapter have been added giving information on a new bibliography and some new data together with references to subsequent studies Class , 1929 **Bouvier's Law Dictionary and Concise Encyclopedia** John Bouvier, 1914

The Learning and Teaching of Cantonese as a Second Language Siu-lun Lee, 2023-07-12 The Learning and Teaching of Cantonese as a Second Language brings together contributions on such issues as Cantonese textbooks, linguistic description, literacy and tone acquisition, supplemented by case studies from the Netherlands and Japan. The learning and teaching of Cantonese as a second language is a subject of considerable interest in the international academic community and the first international symposium on teaching Cantonese as a second language held at the Chinese University of Hong Kong in October 2019 brought together leading researchers in this field. This conference provided the inspiration for the current volume. The Learning and Teaching of Cantonese as a Second Language. In the Hong Kong context, historically, the term Cantonese refers to the language varieties of immigrants who came to the territory from various areas in Guangdong province, including Macau, Panyu, Taishan, Xinhui and Zhongshan. From the late nineteenth century onwards, their speech coalesced into the contemporary variety of Cantonese used in Hong Kong today. The term Cantonese is also used to refer to the entire Yue subgroup of Chinese, which includes varieties of Cantonese spoken in southern China, Hong Kong, Macau, Malaysia, Singapore and among overseas Chinese in Australia, Europe and North America. In all, it is estimated that there are about 70 million Cantonese speakers in the world. This volume is of direct relevance to educators, language teachers, linguists and all those concerned with the learning of Cantonese as a second language. *Parliamentary Debates* New Zealand.
