**The Poetics of Empowerment in David Mitchell's Novels** Eva-Maria Windberger, 2023-07-17

The Poetics of Empowerment in David Mitchell's Novels combines the investigation of David Mitchell's novels with the introduction of a new critical concept to literary studies empowerment Aiming to situate and establish empowerment firmly within the context of literary studies it offers the first framework and definition for reading fictional texts with the lens of empowerment and applies it in the analysis of discourse the fictional characters and the role of the reader in Mitchell's novels Drawing on narratological analysis cognitive approaches to literature and reader response theory it features close readings of Cloud Atlas 2004 Black Swan Green 2006 and The Thousand Autumns of Jacob de Zoet 2010 and dissects the author's strategies poetics and agenda of empowering fiction This book argues for an inherent indissoluble connection between empowerment and the telling of stories and demonstrates how literary studies can benefit from a serious engagement with empowerment and how such an engagement can stimulate new responses to fiction and put literary studies in conversation with other disciplines

**Beyond Ethnicity** Camilla Fojas, Rudy P. Guevarra, Nitasha Tamar Sharma, 2018-03-31 Written by scholars of various disciplines the essays in this volume dig beneath the veneer of Hawai'i's myth as a melting pot paradise to uncover historical and complicated cross racial dynamics Race is not the primary paradigm through which Hawai'i is understood Instead ethnic difference is celebrated as a sign of multicultural globalism that designates Hawai'i as the crossroads of the Pacific Racial inequality is disruptive to the tourist image of the islands It ruptures the image of tolerance diversity and happiness upon which tourism business and so many other vested transnational interests in the islands are based The contributors of this interdisciplinary volume reconsider Hawai'i as a model of ethnic and multiracial harmony through the lens of race in their analysis of historical events group relations and individual experiences and humor among other focal points Beyond Ethnicity examines the dynamics between race ethnicity and indigeneity to challenge the primacy of ethnicity and cultural practices for examining difference in Hawai'i while recognizing the significant role of settler colonialism This original and thought provoking volume reveals what a racial analysis illuminates about the current political configuration of the islands and in doing so challenges how we conceptualize race on

the continent Recognizing the ways that Native Hawaiians or K naka Maoli are impacted by shifting violent and hierarchical colonial structures that include racial inequalities the editors and contributors explore questions of personhood and citizenship through language land labor and embodiment By admitting to these tensions and ambivalences the editors set the pace and tempo of powerfully argued essays that engage with the various ways that K naka Maoli and the influx of differentially racialized settlers continue to shift the social political and cultural terrains of the Hawaiian Islands over time
