Handbook of Research on Empowering Early Childhood Educators With Technology Burris, Jade, Rosen, Dina, Karno, Donna, 2021-06-18 Computers and mobile technologies have become widely adopted as sought after tools in the field of education. The prevalence of technology in early childhood education (ECE) is increasing and teachers both pre-service and in-service are using best practices to integrate tools effectively to improve teaching and learning within the field. This includes settings such as childcare centers, family childcare, and community programs that have both educators and administrators adapting to the use of technology. Therefore, it has become critical to research and explore the best practices of technology integration and successful strategies to improve the use of technology in ECE. The *Handbook of Research on Empowering Early Childhood Educators With Technology* examines best practices that focus specifically on those that facilitate the development of competencies in teaching young children (birth to age 8) and technology integration. The chapters include information on the foundations of technology in early childhood education, content specific technology applications, developmentally appropriate practices (DAP) for learners using technology, and how to meet diverse learner needs with

technology The target audience for this book is early childhood professionals teacher educators pre and in service teachers in early childhood settings faculty and researchers in the field of education instructional technologists childcare and elementary school administrators early education policy organizations and advocacy groups that are interested in the best practices and successful strategies for implementing technology in ECE *Exploring Key Issues in Early Childhood and Technology* Chip Donohue,2019-07-04 Exploring Key Issues in Early Childhood and Technology offers early childhood allies both in the classroom and out a cutting edge overview of the most important topics related to technology and media use in the early years In this powerful resource international experts share their wealth of experience and unpack complex issues into a collection of accessibly written essays This text is specifically geared towards practitioners looking for actionable information on screen time cybersafety makerspaces coding computational thinking STEM AI and other core issues related to technology and young children in educational settings Influential thought leaders draw on their own experiences and perspectives addressing the big ideas opportunities and challenges around the use of technology and digital media in early childhood Each chapter provides applications and inspiration concluding with essential lessons learned actionable next steps and a helpful list of recommended further reading and resources This book is a must read for anyone looking to explore what we know and what we still need to know about the intersection between young children technology and media in the digital age **Full**
