Michelangelo Merisi da Caravaggio

Caravage Claudio Strinati:

The (true) Life of Caravaggio According to Claudio Strinati Claudio Strinati, 2013 Caravaggio in Film and Literature Laura Rorato, 2017-07-05 Although fictional responses to Caravaggio date back to the painter's lifetime 1571-1610 it was during the second half of the twentieth century that interest in him took off outside the world of art history. In this new monograph the first book-length study of Caravaggio's recent impact Rorato provides a panoramic overview of his appropriation by popular culture. The extent of the Caravaggio myth and its self-perpetuating nature are brought out by a series of case studies involving authors and directors from numerous countries: Italy, Great Britain, America, Canada, France, and Norway, and literary and filmic texts from a number of genres from straightforward tellings of his life to crime fiction, homoerotic film, and postcolonial literature.

Caravaggio Sybille Ebert-Schifferer, 2012-06-05 The young Michelangelo Merisi da Caravaggio 1571-1610 created a major stir in late sixteenth-century Rome with the groundbreaking naturalism and highly charged emotionalism of his paintings. One might think given the vast number of books that have been written about him that everything that could possibly be said about the artist has been said. However, the author of this book argues it is important to take a fresh look at the often repeated and widely accepted narratives about the artist's life and work. Sybille Ebert-Schifferer subjects the available sources to a critical reevaluation, uncovering evidence that the efforts of Caravaggio's contemporaries to disparage his character and his artwork often sprang from their own cultural biases or a desire to promote the artistic achievements of his rivals. Contrary to repeated claims in the literature, the painter lacked neither education nor piety but was an extremely accomplished technician who developed a successful marketing strategy. He enjoyed great respect and earned high fees from his prestigious clients while he also inspired a large circle of imitators. Even his brushes with the law conformed to the behavioral norms of the aristocratic Romans he sought to emulate. The beautiful reproductions of Caravaggio's paintings in this volume make clear why he captivated the imagination of his contemporaries, a reaction that echoes today in the ongoing popularity of his work and the fierce debate that it continues to provoke among art historians.

Valentin de Boulogne Annick Lemoine, Keith Christiansen, 2016-10-07 Following Caravaggio's death in 1610 the French artist Valentin de Boulogne 1591-1632 emerged as one of the great champions of naturalistic painting. The eminent art historian Roberto Longhi honored him as the most energetic and passionate of Caravaggio's naturalist followers. In Rome, Valentin, who loved the tavern as much as the painter's palette, fell in with a rowdy confederation of artists but eventually received commissions from some of the city's most prominent patrons. It was in this artistically rich but violent metropolis that Valentin created such masterworks as a major altarpiece in Saint Peter's Basilica and superb renderings of biblical and secular subjects until his tragic death at the age of forty-one cut short his ascendant career. With discussions of nearly fifty works representing practically all of his painted oeuvre, *Valentin de Boulogne: Beyond Caravaggio* explores both the artist's superlative depictions of daily life and the tumultuous context in which they were produced. Essays by a team of

international scholars consider his key attributions to European painting his devotion to everyday objects and models from life his technique of staging pictures with the immediacy of unfolding drama and his place in the pantheon of French artists An extensive chronology surveys the rare extant documents that chronicle his biography while individual entries help situate his works in the contexts of his times Rich with incident and insight and beautifully illustrated in Valentin's complex suggestive paintings Valentin de Boulogne Beyond Caravaggio reveals a seminal artist a practitioner of realism in the seventeenth century who prefigured the naturalistic modernism of Gustave Courbet and Edouard Manet two centuries later

Flemish Masters and Other Artists Palazzo Ruspoli (Rome, Italy), 2008 Caravaggio: The palette and the sword Milo Manara, 2017 Chronicling the pleasures and struggles of Michelangelo Merisi who the world would come to know as Caravaggio during the painter's early years in Rome this seminal work is Manara's love letter to his idol one of the most revered and influential artists in history Filled with striking and timeless artwork this hardcover is the first English language edition of another modern Manara masterpiece **Caravaggio** David M. Stone, 2017-07-05 As this collection of essays makes clear the paths to grasping the complexity of Caravaggio's art are multiple and variable Art historians from the UK and North America offer new or recently updated interpretations of the works of seventeenth century Italian painter Michelangelo Merisi da Caravaggio and of his many followers known as the Caravaggisti The volume deals with all the major aspects of Caravaggio's paintings technique creative process religious context innovations in pictorial genre and narrative market strategies biography patronage reception and new hermeneutical trends The concluding section tackles the essential question of Caravaggio's legacy and the production of his followers not only in terms of style but from some highly innovative strategies concettismo art marketing and the price of pictures self fashioning and biography and the concept of emulation
