In presenting this book to educational institutions which are members of the Reserve Officers Training Corps or the Students Army Training Corps, the authors have endeavored to produce in a single text book the entire theoretical course for the first year of the basic course as specified in General Orders No 49 W D 1916. In addition to meet the needs of institutions having Junior Divisions of the Reserve Officers Training Corps, an appendix is inserted which will enable such institutions to likewise comply with General Orders No 49 W D 1916. Thus a student completing the course of the Junior Division also completes the first year basic course Senior Division. As the majority of educational institutions devote one hour per week during the college year to recitations and military science for their first year students, the book has been divided into lessons each of such length as will be suitable to the average student. The entire volume has been written with a view to making it easier for students of the upper classes to teach the text to the incoming classes where the number of students enrolled necessitates this being done.
