

TEN STEPS TO MINDFULNESS MEDITATION

1

Create time & space.
Choose a regular time each day for mindfulness meditation practice, ideally a quiet place free from distraction.

2

Set a timer.
Start with just 5 minutes and ease your way up to 15-40 minutes.

3

Find a comfortable sitting position.
Sit cross-legged on the floor, on the grass, or in a chair your feet flat on the ground.

4

Check your posture.
Sit up straight, hands in a comfortable position. Keep neck long, chin tilted slightly downward, tongue resting on roof of mouth. Relax shoulders. Close eyes or gaze downward 5-10 feet in front of you.

5

Take deep breaths.
Deep breathing helps settle the body and establish your presence in the space.

6

Direct attention to your breath.
Focus on a part of the body where the breath feels prominent: nostrils; back of throat; or diaphragm. Try not to switch focus.

7

Maintain attention to your breath.
As you inhale and exhale, focus on the breath. If attention wanders, return to the breath. Let go of thoughts, feelings or distractions.

8

Repeat steps 6-7.
For the duration of meditation session, the mind will wander. Simply acknowledge this and return to your breath.

9

Be kind to yourself.
Don't be upset if focus occasionally drifts or if you fall asleep. If very tired, meditate with eyes open and rearrange posture to more erect (but still relaxed) position.

10

Prepare for a soft landing.
When the timer goes off, keep eyes closed until you're ready to open them. Be thankful. Acknowledge your practice with gratitude.

Mindfulness Meditation 2026 Guide

Rose Arny

Mindfulness Meditation 2026 Guide:

Handbook of Writing Research Charles A. MacArthur, Steve Graham, Jill Fitzgerald, 2025-05-28 Synthesizing the breadth of current research on the teaching and learning of writing the third edition of this definitive handbook has more than 90% new content reflecting the growth and dynamism of the field. Leading scholars including many international voices review major theories, developmental issues, and instructional approaches for students at all grade levels. Cognitive and sociocultural aspects of writing are explored in depth as are assessment principles and methods. Issues in teaching students with disabilities, multilingual students, and culturally diverse students are addressed. The volume discusses innovative research methods and educational technologies and identifies key directions for future investigation. New to This Edition: Chapters on executive functions in writing, disciplinary writing in math, science, and social studies, the role of vocabulary in writing, and formative assessment. Chapters on source-based writing, source evaluation, and writing development and instruction for African American students. Chapters on sociocultural aspects of writing from critical literacies to agency and identity, social justice issues, and more, plus an emphasis on integrating cognitive and sociocultural perspectives throughout.

Handbook

of Obesity Treatment Thomas A. Wadden, George A. Bray, 2019-11-07 Description: The leading clinical reference work in the field now significantly revised with 85% new material, this handbook has given thousands of practitioners and students a comprehensive understanding of the causes, consequences, and management of adult and childhood obesity. In concise, extensively referenced chapters from preeminent authorities, the Handbook presents foundational knowledge and reviews the state of the science of evidence-based psychosocial and lifestyle interventions as well as pharmacological and surgical treatments. It provides guidelines for conducting psychosocial and medical assessments and for developing individualized treatment plans. The effects of obesity and of weight loss on physical and psychological well-being are reviewed, as are strategies for helping patients maintain their weight loss. Key Words: obesity, medicine, obese, overweight, weight loss, weight management, reduction, eating disorders, binge eating disorder, night eating syndrome, behavioral therapy, behavioural therapies, psychosocial treatments, medical treatments, bariatric surgery, nonsurgical pharmacological, adults, children, childhood, adolescents, assessments, lifestyle interventions, prevention, psychological treatments, evidence-based treatment programs, obesity epidemic, Albert J. Stunkard, severe weight problems, chronic weight problems, body mass index, health psychology, clinical psychology, behavioral medicine, weight loss devices, gastric balloons, gastric bypass, sleeve gastrectomy, public health problems, medical complications, health consequences, dietary options, weight loss diets, bingeing, exercise, physical activity, addictions, leptin.
