

THE ENTREPRENEUR'S GUIDE TO PRODUCTIVITY

A 5-STEP DAY PLANNER

Focus on "output" rather than "activity" or "input".
You can do the task, but measure the results to
see only what's important from your time to work
on. Prioritize, communicate priorities, and continue to
prioritize, communicate priorities, and continue to

do. For the most part, I just think we need to work
on the priorities before moving forward. You can't
do it all, but focus on what matters.

right priorities.

1. **Set your goals.** Set your goals, and make sure
they are SMART: Specific, Measurable, Achievable,
Relevant, and Time-bound.
2. **Establish your priorities.** Prioritize your goals
and determine the tasks required to achieve
them. Focus on the tasks that will have the
greatest impact on your goals.
3. **Allocate your resources.** Once you have
prioritized your tasks, allocate your time and
resources to each task. Make sure you have
the right tools and resources to complete each task.

the right tools to get
the right results.

the right tools to get
the right results.

STEP 3 FOCUS ON RESULTS.

As an entrepreneur, you will be able to measure the output of your work. This means that you
can determine how effective your work is in terms of productivity, quality, and efficiency. This
information can be used to make better decisions about your business, and to plan for future
growth.

New business owners:
New business owners can benefit from the 80/20 rule in their business model. This rule
states that 80% of a company's revenue comes from 20% of its products or services. By
identifying these top products or services, new business owners can focus their efforts on
these areas.

The Pareto principle, also known as the 80/20 rule, is based on the concept of power law distributions, which are common in nature. The rule states that 80% of the outcomes, and 20% of the inputs, are responsible for 80% of the results. This principle can be applied to business to help identify the most efficient and effective ways to achieve success.

For example, if you want to grow your business, focus on the 20% of tasks that are responsible for 80% of the results. This will help you save time and resources, and focus on what truly matters.
