Towards a Uniform Approach to Confidentiality of International Commercial Arbitration Elza

Reymond-Eniaeva, 2019-06-11 The book deals with confidentiality as one of the most controversial issues in international commercial arbitration. On the one hand, it is widely recognized that confidentiality is an important advantage of arbitration which contributes to its attractiveness. On the other hand, there is no uniform regulation in national legislations, arbitration rules and other relevant sources as to the scope or even to the existence of a duty of confidentiality. A uniform approach to confidentiality of international commercial arbitration is possible. The best way to achieve it would be through harmonization of national arbitration laws which should impose a confidentiality obligation subject to certain exceptions. The purpose of maintaining confidentiality would be to protect primarily the parties from undesirable leaks that can be avoided and to protect arbitration as an institution. As to a systematic publication of arbitral awards without identifying the parties' identity, it is undesirable and should be the goal.

Improperly Obtained Evidence in Anglo-American and Continental Law

Dimitrios Giannouloupoulos, 2019-02-21 This is the first book to offer an extensive cosmopolitan cross-cultural insight into the perennial controversy over the use of improperly obtained evidence in criminal trials. It challenges the conventional view that exclusionary rules are idiosyncratic of Anglo-American law and highlights the constitutionalisation and internationalisation of criminal evidence and procedure as a cause of rapprochement or divergence beyond the Anglo-American and Continental law divide. Analysis focuses on confessional evidence and evidence obtained by search and seizure, telephone interceptions and other means of electronic surveillance. The laws of England and Wales, France, Greece and the United States are systematically compared and contrasted throughout this study, but where appropriate, analysis extends to other Anglo-American and Continental legal systems. The book reviews exclusionary rules vis-à-vis the operation of judicial discretion and explores the normative justifications that underpin them. It attempts to reinvigorate the idea of excluding evidence to protect constitutional or human rights, the rights thesis, arguing that there is significant scope for Anglo-American and Continental legal systems to place a renewed emphasis on it, particularly in relation to confessional evidence obtained in violation of custodial interrogation rights. We can locate an emerging rapprochement and unique potential for European Court of Human Rights jurisprudence to build consensus in this respect. In marked contrast, remaining divergence with regard to evidence obtained by privacy violations means there is little momentum to adopt a reinvigorated rights thesis more widely. Longlisted for the Inner Temple Book Prize 2022.
