**The World of Fanzines** Fredric Wertham, 1973 There are well over 200 fanzines in current distribution originating in almost every state in the US as well as in Canada England Germany Ireland Spain and Sweden This is the first book about them Few persons outside the science fiction field where historically fanzine publication appears to have begun know the meaning of the portmanteau word fan zine amateur fan plus magazine Fanzines are published written and illustrated by young persons usually well under 30 and bear such names as ANDROmeda BeABohema Comickazi Granfalloon and Varolika The history of the genre is brief dating from the 1930s but many of the publishers and contributors have achieved considerable distinction as writers including Poul Anderson Ray Bradbury and Richard Lupoff Coming to this serious study of an unusual subject with his considerable expertise in the field of violence Dr Wertham has been struck first by the nonviolent creative aspects of the genre and second by the amateur status of fanzines His conclusion which will surprise many readers is that herein may lie a message for our unheroic age
