Clinical Laboratory Values for Nurses Nuria Mari, 2019-07-02 A clinical laboratory or a medical laboratory if you will is one where pathology tests are conducted Clinical tests are done here and the results gotten from the tests help in diagnosis treatment and disease prevention Clinical laboratories differ greatly from research laboratories While clinical laboratories are an example of applied science research laboratories focus on core science or should I say basic science This can be found in most institutions of learning When it comes to NCLEX you cannot escape memorizing some things And clinical laboratory values are certainly among those things that you will memorize Are you scared of memorizing lab values Maybe you are wondering why it is important in the first place Whatever the case there's no need to worry You are not alone Stop beating yourself over how to scale through the NCLEX and let's study this text together page after page Clinical Laboratory Values for Nurses is written for the aspiring NCLEX candidate and RNs in general It is written in very simple English thus eliminating the stress of comprehending bogus medical terminologies So what makes this text different from others Well as a clinician you are dealing with human life and human life is precious As a nurse it is not all about memorizing values It is all about being able to apply these values when required You must have a first-hand knowledge of what goes on in the body when these values are far above or below the normal This is what makes this book tick This book covers Introduction to clinical lab values Guide to specimen collection Avoiding common problems during the test A comprehensive exposition of Hematological tests Arterial blood gases Electrolytes Lipids Cardiac enzymes Acid base values Gastrointestinal pathogens panel Hormones And a summary of lab values for vitamins tumor markers and miscellaneous tests So Open your text along with me and let's get a first-hand knowledge of Clinical Lab Values for Nurses Memorizing Laboratory Values: Master the Lab Values for Nurses Today Without Memorization Ara Klatt, 2021-06-30 To be a nurse is to know lab values Nearly every single shift you'll have to note record and assess a whole lot of data generated by your patients This information

is crucial to their health and care and knowing how to record manage and interpret this data will be a big part of your career You will also almost certainly get asked about lab values on the NCLEX So with that said let me tell you CONFIDENTLY REMEMBER LAB VALUES IN A SYSTEMATIC WAY This book gives you a clear and simple roadmap for approaching any LAB VALUES and leaves out the jargon and sticks to the important information After working through the steps in this book you ll be able to follow a case discussion with your colleagues recognize many common and dangerous diseases and start using the LAB VALUES in your daily clinical practice SAVE TIME ENERGY AND MONEY Don t waste your energy on complicated textbooks and papers full of theory Don t spend your valuable time and money on expensive on site courses travel and accommodation Instead learn the most important clinical skills where you want and when you want LEARN IN A PLAYFUL WAY There s no need to learn complicated principles and to go through lots of theories just because you want to become an expert I ll teach you the most important concepts starting with the basics leading you up to the expert level in a playful way It has never been easier to get clarity with this method *A Clear & Simple Roadmap For Approaching Any Lab Values* Cecila Corriveau,2021-03-06 When you take the NCLEX exam there is a high probability you will have some type of lab value question Why Because almost every patient that walks through the doors of a hospital will have blood work drawn and as the nurse you will need to know about the common blood tests ordered and their normal lab value ranges Therefore the NCLEX wants to make sure you have competent knowledge in this area before you start working as a licensed nurse This book is designed for Healthcare professionals and telemetry staff Students preparing for ACLS such as paramedics EMTs nurses physicians clinical pharmacists and respiratory therapists Nurses pharmacists emergency medical services personnel and physicians seeking to earn continuing education credits *Current Index to Journals in Education* ,1972
