Damanhur Temples Of Humankind:

Damanhur Esperide Ananas,Oberto Airaudi,2006 A large format book of photographs of the art and architecture temples filled with murals sculpture mosaic and stained glass built by devoted members of the Alps communal village of Damanhur Text describes the development of a contemporary utopian society practicing spirituality inclusive of all world cultures Provided by publisher Damanhur Jeff Merrifield,2021-08-10 Damanhur in Italy has for nearly 45 years been an experiment in human consciousness and in this fully illustrated book Jeff Merrifield outlines the exciting discoveries that the community is making Short steps for humans a giant leap for humankind For more than four decades the spiritual artistic community of Damanhur has grown from humble beginnings to become a prime mover in terms of spiritual research and the ecological protection of the planet A group of people which has remained a stable and active entity over all those years they have developed a sociological tool to enhance their shared experiences the concept of a Superindividual where groups of people or even whole communities become as one and function and create as one The best news is Damanhur is opening out to the world It will no longer be a closed and introspective collective but will be sharing its discoveries with humanity at large Already groups of indigenous peoples are treading a path to Damanhur sharing shamanic knowledge and forming mutual bonds on a mission to save the planet and make the world a better place An ambitious and exciting programme of new building has already started in and around the now famous Temples of Humankind At the same time Damanhur is going out into the world establishing active centres around the globe as far afield as Iceland and Australia not as clones of the Italian version but as thriving vibrant entities in their own right It s an inspiration to families to workplaces to other communities and to movements like Extinction Rebellion How do we transform society from the ground up How can we both flourish as individuals and work together in community for a common cause This book will show you how *Seeking Transcendence* Joseph C. Manzella,2025-06-23 Seeking Transcendence examines the various paths taken by those who have detached themselves from their traditional institutional religious roots but are seeking non traditional paths to spiritual experiences Called the nones or non affiliated in popular mass media these include a significant number of Western folks who maintain a belief in God or at least consider themselves spiritual but not religious Each chapter of the book explores these trends with a specific theme as well as a case study based on the author s ethnographic observation of alternative spiritual communities and practices in North America and Western Europe Ultimately this book shows how contemporary alternatives to traditional institutional religion appeal to nones presenting the relevance of new religious movements and more secular spiritual paths to transcendence **The Synchronic Lines - The energy streams of Planet Earth** Falco Tarassaco,2016-02-16 The synchronic Lines are the roads of Life a network of streaming energy that spills out over planet Earth and links up all worlds where life exists Energy streams that catalyze the great forces of the cosmos They are special lines of communication that become amplifiers of emotions carrying information which reaches out to all living beings

irrespective of language differences since they act on the principle that like attracts like The Synchronic Lines cross our Earth like vibrant highways of energy uniting far distant points This book describes how and why this works illustrating the functions of the Synchronic Lines and the paths they take with the help of maps and illustrations From careful study of the Lines it is possible to derive a very great deal of information that will lead us to interpret historical events in a new way

Spirals of Energy Esperide Ananas,2016-02-16 A fascinating and mysterious discipline Selfica creates objects made of metal inks and colors that can interact with the environment in a positive way Selfic structures enhance personal well being sensitivity and mental and physical balance Be it jewelry metal structures or paintings Selfic devices also help their users to learn more about themselves and get in touch with energetic dimensions and information fields different from those in which we are normally immersed Selfica developed through the research and teaching of Oberto Falco Airaudi founder of Damanhur Federation of Communities is actually an ancient art science already known and used by many peoples of the past This book recounts the experiments of many researchers and enthusiasts as well as those of the author who has personally participated in many exciting experiences It is a journey into a new dimension where time space emotions and memory respond to laws which are very different from those we are used to *Confessions of an Illuminati, Volume II* Leo Lyon Zagami,2016-06-01 After his master thesis of the secret societies network as outlined in volume 1 the Confessions of an Illuminati narrative of Leo Lyon Zagami is projected to the reality of today including the occult maneuvers behind the New World Order We need to wake up beyond our current belief systems because the controllers of the New World Order are moving fast using the Prophecies to their advantage to implement their evil plan by 2020 when World War III will finally break loose The author demonstrates that the hierarchy of power emanating from Rome and Jerusalem with the Jesuits and the Zionist s united by a secret pact since the Second Vatican Council are in cahoots working towards the creation of a world government There is also China playing a new role in the NWO with the far reaching tentacles of Chinese Freemasonry manipulating economic Hit Men and disinformation artists while Russia is building their Christian orthodox alliance to apparently oppose the Western antichrist In this unprecedented scenario we also have the involvement of the big media moguls like Ted Turner and Silvio Berlusconi and their role in manipulating perceptions The author discusses further aspects of the Satanic infiltration of Freemasonry pointing out on the generational aspect the many ways of defending yourself psychically against black magicians but also against the many sects operating in the Illuminati Network **The Book of Synchronicity** Oberto Airaudi,2007 A modern translation of an ancient book of magic by the contemporary Italian spiritual leader Oberto Airaudi The Book of Synchronicity taps into the Synchronic Lines rivers of spiritual energy that flow through the universe These lines link the various celestial bodies and the intelligences that can access them The lines path on Earth according to the book takes the form of eighteen Major Lines through which pour ideas dreams thoughts and information Whenever a reader consults The Book of Synchronicity he or she is in effect accessing this flow of knowledge Easy to

Lewis, 2004 In the late 1980s the New Age movement became the focus of both media attention and widespread ridicule as some of the more outlandish aspects of the movement such as channeling and the use of crystals for healing briefly piqued the public's curiosity While the movement was at its height scholars of religion generally sneered at what was perceived to be a daffy shallow craze and ignored it as a subject of serious study Professor James R Lewis was among the first to examine this growing religious phenomenon scientifically In previous books he has investigated the New Age as the most visible manifestation of a significant spiritual subculture the roots of which reach back to Theosophy Spiritualism and New Thought The present collection pursues this theme bringing together some of the best recent scholarship on new religions Since the

height of its popular influence the New Age has declined in strength but has given rise to a plethora of new denominations all shaped by New Age ideas and spirituality Reflecting the emergence of this new denominational structure the core chapters of this book focus on specific groups Other chapters examine the movement s historical roots A unique feature of Dr Lewis s work is his inclusion of extensive selections from New Age literature thus allowing readers to experience firsthand the unusual perspectives of the various groups This is a fascinating examination of a significant and persistent religious and social phenomenon
