

Statement of Commitment

The 2023 BIOTech Futures Challenge is a 4 week challenge commencing on the 4th of September and ending on the 29th of September. Please ensure that you are able to commit to the Challenge during these dates. The Symposium will be held on the 16th of October for finalists to present their work. Everyone involved in the Challenge is encouraged to attend.

Mentors

Mentors are the backbone of the BIOTech Futures program and in the past teams have mentioned that working with their mentors has been the greatest take-away from the Challenge. Mentors need to be approachable and actively responsive to the queries of their teams. They communicate through email using their official, registered email address, online conference calls (zoom/skype), or over the phone. Mentors and teams are also able to meet in person if it is possible.

Mentors can guide students through two ways:

1. By suggesting particular project(s) in the area of expertise of the mentor, which students can choose.
2. By mentoring students on projects that the students have devised themselves.

Examples of past project titles include 'a novel non-thrombogenic film for mechanical heart valves', 'therapeutic clothes for eczema', '3D printed uterus transplant for endometriosis', 'drug elucidating hydrogel dressing for enhanced wound healing', and 'a smart greenhouse approach for maximising root oxygen levels in food crop'.

Mentors contributing a particular project should also contribute some relevant literature links. By and large, the provided literature should be open-access. If a particular piece of literature is necessary to the project then the mentor

Values Cockpits Friedrich Glauner, 2017-07-25 This book answers the question of how soft factors such as corporate cultures and individual and corporate values can be transparently steered With its C4 management tool and reflecting the seven driving forces of corporate culture the Values Cockpit is a powerful solution designed to steer all dimensions and processes of a company pursuing a lean approach The book links strategic approaches on how to steer a company towards excellence with insights into the driving forces of human thoughts and actions It subsequently introduces the Values Cockpit which allows individual corporate cultures to be developed and controlled on the basis of a rational approach It has since become commonplace that for the best companies in the world it is their great corporate culture that sustains their excellence and economic success In order to establish such a corporate culture all corporate values must be thoroughly controlled steered and measured This book serves as an essential guide helping companies to reach these goals and ensure their sustainable economic success

The G20 Peter I. Hajnal, 2019-01-24 This revised and updated edition presents detailed analysis of the history and current state of the G20 and the challenges it faces The emergence of the G20 was the result of calls for full inclusion of major developing and other systemically important countries and to reflect new global economic and political realities The growth of Chinese power growing significance of other major developing countries and new concerns concerning anti globalization and rising protectionism in the West have all resulted in important changes to the dynamics of the institution The suspension of Russia s membership in the G8 has also necessitated a change in G7 G20 dynamics and the G20 s processes agenda priorities and role in global governance Providing a historical overview and analysis of the evolving agenda methods of performance evaluation relationship with structured international organizations and other external actors Hajnal s text is an authoritative work of history analysis and reference on the G20 and also G7 G8 G20 reform This book is an essential source for researchers and students focusing on the G20 international organizations and global governance and more generally for scholars in the fields of political science economics and finance
