Subcommittee on Regulatory Reform, Commercial and Antitrust Law, 2014 , . . . **And Communications for All** Amit M. Schejter, 2009-02-16 In **And Communications for All** 16 leading communications policy scholars present a comprehensive telecommunications policy agenda for the new federal administration. This agenda emphasizes the potential of information technologies to improve democratic discourse, social responsibility and the quality of life along with the means by which it can be made available to all Americans. Schejter has assembled an analysis of the reasons for the failure of the Telecommunications Act of 1996 and offers an international benchmark for the future of telecommunications. Addressing a range of topics including network neutrality, rural connectivity, media ownership, minority ownership, spectrum policy, universal broadband policy and media for children, it articulates a comprehensive vision for the United States as a twenty-first century information society that is both internally inclusive and globally competitive. *Screen Digest*, 2004

Philip Kemp Times Higher Education. *Media Today* uses convergence as a lens that puts students at the center of the profound changes in the 21st century media world. Through the convergence lens they learn to think critically about the role of media today and what these changes mean for their lives presently and in the future. The book's media systems approach helps students to look carefully at how media is created, distributed and exhibited in the new world that the digital revolution has created. In this way *Media Today* goes beyond the traditional mass communication textbook's focus on consuming media to give students an insider's perspective on how media businesses operate. How exactly does Google profit from web searches? What will a magazine look like five years from now? Informative and engaging. *Media Today* Fifth Edition is characterized by its focus on Convergence. In addition to separate chapters on the Internet and the Video Games industry.
