With just 25 common paint colors you can make 2,400 different hues and they are all illustrated in this comprehensive guide. That's 2,400 hues for each medium: oils, acrylics, and watercolors, with each hue visually represented for your easy reference. Better yet, each color mix uses only two paint colors, so matching results are easy to obtain and your colors remain vibrant and true, not muddled by too many pigments as you often get from mixes with many paint colors. Pro mixing tips for each type of paint are included to help you achieve winning results. This simple-to-master color mixing system will help you find and mix just the right color every time.
