Boy and Justus Uitermark provide an encompassing account of how a platform that is unfailingly polished and ruthlessly judgmental shapes us and our environments They examine how personalities relations social movements urban subcultures and city streets change as they are represented on Instagram Interviews and ethnographic vignettes render an intimate account of the desires and anxieties that animate the platform Just as importantly Boy and Uitermark reveal how Instagram is implicated in social inequalities While previous accounts have argued that social media promote polarization *On Display* shows that this is not the case for Instagram where users belong to large and diverse networks compelling them to take many often contradictory expectations into account This means users shy away from producing statements or images that may cause offense as a way to preserve their public image and their social connections Drawing on sociological theory long term qualitative inquiry in Amsterdam and computational analyses Boy and Uitermark argue that grasping the power of Instagram and other social media platforms requires seeing them not as digital networks of communication and sharing but as a stage for the expression and affirmation of social status *Instagram Rules* Jodie Cook, 2020-10-27 SALES developing a voice identifying trends driving a campaign responding to engagement and more Create a personalised Instagram strategy whatever your business is Apply insight from interviews with successful users from Ben Jerry's and Papier to freelancers and community groups and Jodie's own experience working with international brands celebrities and small businesses Read as a quick fire reference or as a step by step guide or for effective focused strategy Whether you're a complete novice short on time or want to improve your engagement *Instagram Rules* makes social media marketing straightforward and hassle free for any small business or serious Instagram user
