**Quixotic Authority** Jodi L. Wyatt, 2026-01-13 Quixotic Authority reveals how deeply absorbed reading was inextricable from and essential to British women s professional writing and cultural commentary from the mid eighteenth to the mid nineteenth

century The trope of quixotism what we might today call fangirling had distinctly gendered implications as the female quixote was almost exclusively associated with uncritical overly absorptive novel reading and often portrayed as a self centered deluded ill educated home wrecker who must be reformed or punished But what do we make of the fact that women wrote most of the depictions of female quixotes in novels of this period Jodi Wyatt shows that authors such as Charlotte Lennox and Jane Austen wrote quixote narratives to assert their own professional cachet as well as validate the passion and intelligence of women novel readers Harnessing the power of the genre they debunked proscriptive contemporary discourse denigrating both women and the novel This book redefines the female quixote as a fierce fangirl both modeled in fiction and embodied by her creators

**Unseasonable** Sarah Dimick,2024-10-08 As climate change alters seasons around the globe literature registers and responds to shifting environmental time A writer and a fisher track the distribution of beach trash in Chennai chronicling disruptions in seasonal winds and currents along the Bay of Bengal An essayist in the northeastern United States observes that maple sap flows earlier now prompting him to reflect on gender and seasons of transition Poets affiliated with small island nations arrive in Paris for the United Nations climate summit revamping the occasional poem to attest to intensifying storm seasons across the Pacific In *Unseasonable* Sarah Dimick links these accounts of shifting seasons across the globe tracing how knowledge of climate change is constructed conveyed and amplified via literature She documents how the unseasonable reverberates through environmentally privileged and environmentally precarious communities In chapters ranging from Henry David Thoreau's journals to Alexis Wright's depiction of Australia's catastrophic bushfires from classical Tamil poetry to repeat photography Dimick illustrates how seasonal rhythms determine what flourishes and what perishes She contends that climate injustice is an increasingly temporal issue unfolding not only along the axes of who and where but also in relation to when Amid misaligned and broken rhythms attending to the shared but disparate experience of the unseasonable can realign or sharpen solidarities within the climate crisis

subject Biology Cytology grade 15 Punkte 1 0 language English abstract All living things have to die This fundamental truth is held to apply even to the smallest unit of life cells However there is a phenomenon that is sometimes called biological immortality It refers to cells that live beyond their proclaimed life span which is roughly set by the Hayflick limit All cancer cells have acquired this property they divide indefinitely which is the essential problem with cancer cells On the other hand researchers are very much interested in the molecular mechanism behind this property to may be able to use it to extend life and rejuvenate cells Cells that are not subject to the Hayflick limit are generally seen as a threat to the human body however they are interesting subjects of experiments and scientists have already learned a great deal of knowledge by studying these mutants and continue to gain more important insights into the functioning of any kind of human body cell Immortal cells can be boon and bane for humankind Certain aspects of this issue will be discussed
