Erlich,2014-10-07 Based on firsthand reporting from Syria and throughout the Middle East Inside Syria unravels the complex dynamics underlying the Syrian Civil War Through vivid on the ground accounts and interviews with rebel leaders regime supporters and Syrian president Bashar al Assad himself veteran journalist Reese Erlich gives the reader a better understanding of this momentous power struggle and why it matters Through his many contacts inside Syria the author reveals who is supporting Assad and why he describes the agendas of the rebel factions and he depicts in stark terms the dire plight of many ordinary Syrian people caught in the cross fire The book also provides insights into the role of the Kurds the continuing influence of Iran and the policies of American leaders who seem interested only in protecting US regional interests Disturbing and enlightening at once this timely book shows you not only what is happening inside Syria but why it is so important for the Middle East the US and the world From the Hardcover edition Villains, Scoundrels, and Rogues Paul Martín,2014 From the back pages of history vivid entertaining portraits of little known scoundrels whose misdeeds range from the simply inept to the truly horrifying *Mental Biology* William Robert Klemm,2014 A leading neuroscientist offers the latest research and many new ideas on the connections between brain circuitry and conscious experience How the mysterious three pound organ in our heads creates the rich array of human mental experience including the sense of self and consciousness is one of the great challenges of 21st century science Veteran neuroscientist W R Klemm presents the latest research findings on this elusive brain mind connection in a lucidly presented accessible and engaging narrative The author focuses on how mind emerges from nerve impulse patterns in the densely packed neural circuits that make up most of the brain suggesting that conscious mind can be viewed as a sort of neural activity based avatar As an entity in its own right mind on the conscious level can have significant independent action shaping the brain that sustains it through its plans goals interests and interactions with the world Thus in a very literal sense we become what we think Against researchers who argue that conscious mind is merely a passive observer and free will an illusion the author presents evidence showing that mental creativity freedom to act and personal responsibility are very real He also delves into the role of dream sleep in both animals and humans and explains the brain based differences between nonconscious unconscious and conscious minds Written in a jargon free style understandable to the lay reader this is a fascinating synthesis of recent neuroscience and intriguing hypotheses **Killer Dads** Mary Papenfuss,2013-06-11 No crime is as horrific as mesmerizingly perplexing as a child s murder at the hands of a parent In most cases the perpetrator is the father A veteran journalist explores five examples of family annihilators in this troubling snapshot of American crime twisted by the dark trajectory of machismo in economically stressful times Her research includes some fifty in depth interviews of victims friends and family an examination of police files and detailed profiles of the researchers who track these killer dads She also presents experts theories on the causes that drive men to commit these heinous acts ranging from economic pressures the stress of perceived failure and distorted egos to the disturbing statistics on abuse of adopted children by step fathers and the connection

between murder and pregnancy Finally she discusses factors in contemporary society that may foster such crimes and measures we can and should be taking to prevent them Well researched and often shocking Killer Dads provides disturbing insights into the dark forces that can turn family dynamics into the worst imaginable nightmare **The Soul Fallacy** Julien Musolino, 2015 Most Americans believe they possess an immaterial soul that will survive the death of the body In sharp contrast the current scientific consensus rejects the traditional soul although this conclusion is rarely discussed publicly In this book a cognitive scientist breaks the taboo and explains why modern science leads to this controversial conclusion In doing so the book reveals the truly astonishing scope and power of scientific inquiry drawing on ideas from biology psychology neuroscience philosophy and the physical sciences Much more than chronicling the demise of the traditional soul the book explores where soul beliefs come from why they are so widespread culturally and historically how cognitive science offers a naturalistic alternative to religious conceptions of mind and how postulating the existence of a soul amounts to making a scientific claim Although the new scientific view of personhood departs radically from traditional religious conceptions the author shows that a coherent meaningful and sensitive appreciation of what it means to be human remains intact He argues that we do not lose anything by letting go of our soul beliefs and that we even have something to gain Throughout the book takes a passionate stand for science and reason It also offers a timely rejoinder to recent claims that science supports the existence of the soul and the afterlife

YouTube Review Ebook: Bestsellers in 2023 The year 2023 has witnessed a noteworthy surge in literary brilliance, with numerous captivating novels enthralling the hearts of readers worldwide. Lets delve into the realm of bestselling books, exploring the engaging narratives that have charmed audiences this year. The Must-Read : Colleen Hoover's "It Ends with Us" This touching tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover expertly weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can triumph. Uncover the Best : Taylor Jenkins Reid's "The Seven Husbands of Evelyn Hugo" This intriguing historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reid's compelling storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Discover the Magic : Delia Owens' "Where the Crawdads Sing" This mesmerizing coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens spins a tale of resilience, survival, and the transformative power of nature, entrancing readers with its evocative prose and mesmerizing setting. These popular novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of engaging stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a masterful and suspenseful novel that will keep you wondering until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
