Charlotte Plain,2021-01-07 Anything is possible with a plan Bring order amidst the chaos with this practical guide for those who like to prep or maybe need a little more planning in their lives Happy Planning will give you the tools you need to plan every aspect of your life from the weekly shop daily meal prep and general budgeting right through to big occasions like weddings parties and holidays You ll cut waste save more and live better a little plan goes a long way Planning is about taking away last minute panic pressure gaining control and helping you to be the best version of yourself Charlotte s everyday approach has been so successful that she launched a business off the back of it and is now sharing all of her practical and positive know how in this book As well as her planning mantras and toolkit each section of the book is dedicated to an area of life that benefits from planning and is packed with personal learning experiences planning methods tips and tricks practical guidance and interactive elements It s simple positive and practical planning that will lead to a healthier happier you

### **Fostering Habits of Mind in Today's Students** Jennifer Fletcher,Adela Najarro,Hetty

Yelland,2023-07-03 Co published with and Students need more than just academic skills for success in college and career and the lack of an explicit instructional focus on the soft skills critical to postsecondary success poses a challenge for many students who enter college especially the underprepared Based upon a multi campus cross disciplinary collaboration this book presents the resulting set of habits of mind based strategies that demonstrably help not only low income ESL and first generation college students overcome obstacles on the path to degree completion these strategies equally benefit all students They promote life long integrative learning and foster intellectual qualities such as curiosity openness flexibility engagement and persistence that are the key to developing internalized and transferrable competencies that are seldom

given direct attention in college classrooms This contributed volume written with full time and adjunct faculty in mind provides the rationale for this pedagogical approach and presents the sequential instructional cycle that begins by identifying students assets and progressively focusing on specific habits to develop their capacity to transfer their learning to new tasks and situations Faculty from both two year and four year colleges provide examples of how they implement these practices in English math and General Education courses and demonstrate the applicability of these practices across course types and disciplines Chapters address key factors of college success including The link between habits of mind and student retention and achievement Using an assets based approach to teaching and learning Supporting and engaging students Creating inclusive learning communities Building confidence and self efficacy Promoting transfer of learning Teacher networks and cross disciplinary collaboration By foregrounding habits of mind as an instructional lens this book makes a unique contribution to teaching in developmental and general education settings
