The Digital Future of English Simone Murray, 2025-07-18 More than any other academic discipline literary studies is the creation of print culture How then can it thrive in the digital era Early 1990s predictions of the book's imminent demise presented a simplistic either/or choice between the legacy of moribund print and triumphalist digital technology Yet we have grown to experience the two media as complexly interdependent and even complementary Clearly digital does not kill print But literary studies in the digital era cannot simply resume business as usual It is urgently necessary to reconsider the discipline's founding assumptions in light of digital technology The digital era prompts a rethinking of literary studies object of study as well as its methods theories audiences and pedagogical practices What counts as literature necessarily shifts in an age of proliferating born digital texts and do it yourself DIY online publication Where should literary studies sit institutionally and how might it graft contextually oriented social sciences methods onto its traditionally humanistic mode of textual analysis Why should literary study continue to marginalize emotional responses to texts when online communities bond via readerly

affect Who is the audience for literary criticism in an age where expertise is routinely challenged yet communication with global book loving publics has never been technologically easier Finally how can we utilize digital tools to rejuvenate literary studies pedagogy and help English staff better connect with millennial age students Literary studies has been convulsed for decades by debates over electronic literature and more recently digitally aided distant reading But these discussions still mostly confine themselves to demarcating our proper object of study We need to think more expansively about digital technology s impact on the underpinning tenets of the discipline Literary Media Studies is pitched at fellow literary scholars book historians media theorists cultural sociologists digital humanists and those working at the interface of these converging disciplines It models constructive engagement with contemporary digital culture Most importantly it brings a burst of sorely needed optimism to the question of literary studies digital future

Ross,2013-12-08

Jackson Jacoby is a motherless twenty two year old boy with only the support of his crazy ex military Uncle Marve and a kindred motherless peer named Creg Creg holds fast to the hope of one day reuniting with his mother while Jackson

maintains that his own life is so much better off without all the baggage that comes along with being somebody's son. After finding a plea in a newspaper from a woman begging her runaway son Kevin Masons to return home, Jackson takes the opportunity to prove to Creg that a mother is not necessary to be happy. What begins as a drunken call to the mysterious mother leads to a cross-country pilgrimage to attend the will reading of Kevin's recently deceased grandfather. Along the way, Jackson spreads tales of his participation in the human appendage trade, the history of his missing ear, and anything else that might validate his life the way he insists that a mother never could. From *I Didn't Mean to Be Kevin*, My mother kicked me out when I was ten. I slept on couches, benches, in ditches, and did everything short of kill house pets in order to eat. My uncle took me in during the worst of it, but because I was alone for most of my life, I never had the opportunity to know if what I was doing truly mattered. Validation is a basic need in all of us. If you don't get it as a kid, you try getting it as a teenager. If you don't get it as a teenager, you try getting it as a twenty-two-year-old deformed vagabond. My uncle says I have nomadic roots, but that implies roots of some kind. I've never had roots. I've never had a home, life, to point me where I needed to go. I've never had a destination until recently.
