Chp 1 Networking Today

Networking Today

Networks Connect Us – Communication is almost as important to us as our reliance on air, water, food, and shelter. In today's world, through the use of networks, we are connected like never before.

Network components

Host Roles – Every computer on a network is called a host or end device.

Servers are computers that provide information to end devices:

- Email servers
- Web servers
- File servers

Clients are computers that send requests to the servers to retrieve information

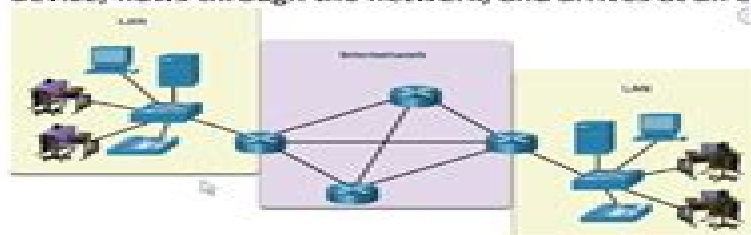

- Web page from a web server
- Email from an email server

Peer-to-Peer (P2P)

Advantages	Disadvantages
Easy to set up	No Centralized administration
Less complex	Not as secure
Lower cost	Not scalable
Used for simple tasks: transferring files and sharing printers	Slower performance

End Devices

An end device is where a message originates from or where it is received. Data originates with an end device, flows through the network, and arrives at an end device.

Data originates with an end device, flows through the network, and arrives at an end device.
