**Comparing Political Corruption and Clientelism** Junichi Kawata, 2017-03-02 Past modernization literature has assumed that corruption and clientelism reflect a pre modern social structure and could be referred to as a pathologic phenomenon of the political system Very few have considered corruption and clientelism as structural products of an interwoven connection between capital accumulation bureaucratic rationalization interest intermediation and political participation from below This volume analyzes key aspects of the debate such as should corruption and clientelism be evaluated as a lubricant in terms of administrative efficiency legitimate demands from the margins of society to redress social and economic inequality or to readdress economic development What would be the effect of strengthening policing to control political corruption Could electoral reform or a decentralization of government power be a cure for all These questions among others are answered in this comprehensive volume *Corruption and Informal Practices in the Middle East and North Africa* Ina Kubbe, Aiysha Varraich, 2019-11-28 This book investigates the pervasive problem of corruption across the Middle East and North Africa Drawing on the specifics of the local context the book explores how corruption in the region is actuated through informal practices that coexist and work in parallel to formal institutions When informal practices become vehicles for corruption they can have negative ripple effects across many aspects of society but on the other hand informal practices could also have the potential to be leveraged to reinforce formal institutions to help fight corruption Drawing on a range of cases including Morocco Lebanon Turkey Jordan Tunisia or Israel the book first explores the mechanisms and dynamics of corruption and informal practices in the region before looking at the successes and failures of anti corruption initiatives The final section focuses on gender perspectives on corruption which are often overlooked in corruption literature and the role of women in the Middle East With insights drawn from a range of disciplines this book will be of interest to researchers and students across political science philosophy socio legal studies public administration and Middle Eastern studies as well as to policy makers and practitioners working in the region *Routledge Handbook of Comparative Political Institutions* Jennifer Gandhi, Rubén Ruiz-Rufino, 2015-04-10 The Routledge Handbook of Comparative Political Institutions HCPI is designed to serve as a comprehensive reference guide to our accumulated knowledge and the cutting edge of scholarship about political institutions in the comparative context It differs from existing handbooks in that it focuses squarely on institutions but also discusses how they intersect with the study of mass behaviour and explain important outcomes drawing on the perspective of comparative politics The Handbook is organized into three sections The first section consisting of six chapters is organized around broad theoretical and empirical challenges affecting the study of institutions It highlights the major issues that emerge among scholars defining measuring and analyzing institutions The second section includes fifteen chapters each of which handles a different substantive institution of importance in comparative politics This section covers traditional topics such as electoral rules and federalism as well as less conventional but equally important

areas including authoritarian institutions labor market institutions and the military Each chapter not only provides a summary of our current state of knowledge on the topic but also advances claims that emphasise the research frontier on the topic and that should encourage greater investigation The final section encompassing seven chapters examines the relationship between institutions and a variety of important outcomes such as political violence economic performance and voting behavior The idea is to consider what features of the political sociological and economic world we understand better because of the scholarly attention to institutions Featuring contributions from leading researchers in the field from the US UK Europe and elsewhere this Handbook will be of great interest to all students and scholars of political institutions political behaviour and comparative politics Jennifer Gandhi is Associate Professor Department of Political Science Emory University Rub n Ruiz Rufino is Lecturer in International Politics Department of Political Economy King s College London

**Corrupt Circles** Alfonso W. Quiroz, 2008-11-13 As Peru prosecutes former president Alberto Fujimori and other alleged participants in state crimes the country s longstanding culture of impunity is under attack and the subject of corruption has acquired a new prominence both in Peru and in Latin America more broadly In *Corrupt Circles* Alfonso W Quiroz gives a definitive and thorough history of Peruvian corruption that dates back to the country s colonial period He demonstrates how corruption has been deeply embedded in Peru s state institutions and has damaged the country s prospects and he offers a comprehensive estimate of the costs of corruption to the country s development Far from being a hidden crime the author finds corruption is well documented throughout Peru s history in the records of its opponents in government journalism and diplomacy The pervasiveness of corruption has been aided by the readiness of both Peruvians and the international community to turn a blind eye
