foreclosure through a blend of theory and practice They develop a general framework which builds on and extends existing economic theories drawing upon case law discussions of cases and other practical considerations to identify workable criteria that can guide competition authorities to assess exclusionary practices Along with analyses of policy implications and insights applied to case studies the book provides practitioners with non technical discussions of the issues at hand while guiding economics students with dedicated technical sections with rigorous formal models Remedies in EU Competition Law

Damien Gerard,Assimakis Komninos,2020-07-10 By their nature remedies are central to competition law enforcement and represent the yardstick against which the efficiency of the overall system can be measured Yet very rarely have remedies been treated in a horizontal and comprehensive manner from the combined perspectives of substance process and policy The present volume developed in partnership with the College of Europe s Global Competition Law Centre GCLC provides coherent practical and authoritative commentaries by leading experts from the GCLC s incomparable network The contributions originally presented at the 2019 GCLC annual conference examine remedies to assess the overall effectiveness of competition law enforcement in merger antitrust and State aid matters The overall topic is presented under five headings objectives and limitations of remedies types of remedies in competition law enforcement implementation and process ex post assessment of remedies and policy lessons and national and international approaches The high profile and wide ranging group of authors includes the Director General of the European Commission s competition department lawyers from major international firms and well known economists and academics specialising in competition law With a sharp focus on how to make competition rules work well in today s digital environment this systematic and coherent analysis illuminates an issue that we need to fully grasp and understand in order to make sense of competition policy law and enforcement in the years and decades to come **Competition Case Law Digest** Frédéric Jenny,Nicolas Charbit,2022 This 5th edition of the
