Popular Culture in Nordic Noir A Study of Selected Works of Maj Sjöwall & Per Wahloo, Henning Mankell and Steig Larsson Dr. Raunak Singh Rathee, 2023-02-15 This book discusses that the genre of crime fiction is suitable for the presentation of the crises, conflicts and indeterminacies present in the plot of the selected works. This book exposes the darker side of Scandinavian countries, particularly Sweden, as the writers and works selected for the book are based on Swedish society. Though as a matter of fact, Scandinavian countries are considered to be the most egalitarian and progressive welfare societies all over the world. The present book explores how popular culture may prove to be a significant thematic approach to studying Scandinavian crime fiction, also called Nordic Noir. The Swedish authors use popular culture as a tool through which they try to convey their concerns regarding various serious issues like anti-immigration, racism, xenophobia, violence against women, the violence of human rights crimes like the drug trade, human trafficking, etc. By assigning the central place to Sjöwall and Wahloo's *Roseanna* 1965, *The Laughing Policeman* 1968, *The Terrorists* 1975, Henning Mankell's *Faceless Killers* 1991, *Sidetracked* 1995, *The Fifth Woman* 1996, Steig Larsson's *The Girl with the Dragon Tattoo* 2005, *The Girl who Played with Fire* 2006, and *The Girl who Kicked the Hornets' Nest* 2007, this book enunciates the notion of popular culture and crime fiction genre in the propagation of the socio-critical reflections of life in the welfare state. Hence, this work also analyses the plot, characters, and themes in the aforementioned works to locate the elements of popular fiction in Scandinavian crime novels by representing this genre's ubiquitousness in the twenty-first century.

Teaching Accelerated and Corequisite Composition David Starkey, 2023-11-21 *Teaching Accelerated and Corequisite Composition* is the first book to compile on the ground advice and teaching strategies specifically curated for accelerated and corequisite writing courses. Trailblazers in the field from colleges across the United States who developed a foundation for corequisites by facilitating equity and accessibility for marginalized students speak to a range of topics and demographics, offering support for instructors and practical advice for improving student success. The book primarily explores accelerated composition through the lens of two-year colleges to answer a central question in the field: to what extent do educators need to alter two-year college curricular design? The contributors also delve into assessment, a crucial process for instructors and their students transitioning to accelerated learning; the key role that reading plays in the writing process; and noncognitive learning, an area of study that has been associated with accelerated learning since its inception. Together, these thirteen chapters provide instructors with a strategic approach to teaching accelerated and corequisite composition. *Teaching Accelerated and Corequisite Composition* points toward a new way of approaching first-year composition: a method of instruction that fosters the growth and success of writers who were once considered underprepared for college writing and are now achieving unprecedented success.

Where's the Office? Wilford A. Lewis, Heather Hansen O'Neill, 2021-11-05 Inspired leaders strive to be better at every turn They embrace change and look to engage and encourage their people to new levels But what happens when the world around you is uncertain When incessant change is thrust upon you and fear is rampant in your teams What happens when the very place you work is removed Today s leaders have had to reevaluate where and how they do their business That involves a new way of leading Where s the Office Moving Today s Leaders from What IS to What CAN BE provides the new perspective that the office resides within you and that you can lead from wherever you are It provides both the strategy and the tools for your success in this environment It moves you and your teams from acceptance of what is to the evolution and possibility of what can be You ll receive innovative tools like Mind SPACE that when introduced to the FBI opened their minds to the insight that enabled them to proclaim Now we can do long range planning And The Seven Levels of Communication a tool that provides clarity in why there are communication breakdowns but more importantly how to elevate the way you communicate to better lead teams initiatives and yourself

Rebound, Grades K-12 Douglas Fisher, Nancy Frey, Dominique Smith, John Hattie, 2021-03-30 For more than a year now we educators have been tested and tested again We ve been stretched we ve been pulled we ve been put through the wringer But now it s time to rebound It s time to bounce back come back better and benefit from the many lessons learned to reignite engagement accelerate learning and move forward with fresh optimism and better systems for schooling Enter Doug Fisher Nancy Frey Dominique Smith and John Hattie whose Distance Learning Playbooks have supported more than a half million educators across pandemic teaching and who are here now to advise you on this next absolutely critical leg of our ongoing journey Complete with tools and strategies prompts and exercises Rebound A Playbook for Rebuilding Agency Accelerating Learning Recovery and Rethinking Schools will help you Address the collective traumas we have experienced during the pandemic and rebuild our sense of agency and self so that we can attribute student success to both teachers and students efforts Evaluate what we have learned about remote teaching and learning to determine what to carry forward and what to leave behind Shift the narrative from learning loss to learning leaps and implement instructional and assessment practices that ensure our students reclaim lost

knowledge build skills develop agency and accelerate gains Redefine classrooms learning experiences the ways schools operate and the very idea of schooling itself The greatest travesty that can arise for schools after 2020 21 Doug Nancy Dominique and John write is to rush back to the old normal and learn nothing or little about what worked well That s why this book has focused on rebounding and taking the opportunity to create an even better schooling system one that serves even more students and focuses more on what matters most Let s agree not to reduce the impact that our expectations have on students learning What if we talk about learning leaps instead of learning loss What if we identify where students are in their learning and identify critical content that they must learn now to accelerate their performance in the future And what if we raise our expectations for students rather than lower them Douglas Fisher Nancy Frey Dominique Smith and John Hattie
