### Travel Adventure Conversions

#### Scenario Overview

Welcome, explorer! You are about to embark on a thrilling travel adventure where you will journey across different landscapes—from towering mountains, to vast deserts, to winding roads. But before you set off, you need to plan carefully!

To ensure a smooth trip, you'll need to pack efficiently, measure your supplies accurately, and track distances along the way. Get ready to put your math skills into action and enjoy your journey!

#### The Task

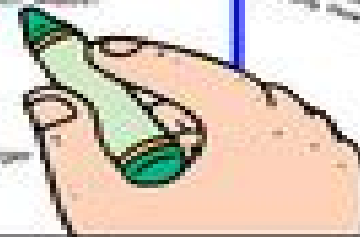

You will practice converting different units of measurement related to travel. You will calculate how much your luggage weighs, determine how much water and food to carry, and measure distances traveled. These skills will help you navigate real-world situations and prepare you for any adventure!

#### Guiding Questions

- When might you need to convert between units in your life?
- How does dividing or multiplying change a number?
- What situations in real life require capacity conversions? Length? Mass?
- How can you check if your conversion is accurate?

#### Process Walk-Through

- Identify the units being converted.
- Recall the conversion factor.
- Multiply or divide based on whether you are converting to a larger unit.
- Check your answer for reasonableness.
