

Build a Ramp City

Use cardboard, books, or blocks to create ramps. Test how cars, balls, and random toys move down. Talk about speed, height, and friction (without using the word friction, obviously).

DRY Balance Scale

Make a simple balance scale using a hanger, string, and cups. Let toddlers guess which items are heavier or lighter.

Sink or Float Sorting Bin

Fill a tub with water.
Gather random objects.
Let them guess and sort:
"Will it sink or float?"

Ice Excavation

Freeze small toys in ice. Hand toolsters squeeze bottles of warm water or droppers to free the toys. A great intro to states of matter.

Color Changing Flowers

Put white flowers in colored water and watch them change over time. Talk about absorption and patience.

Shadow Tracing

Go outside, trace shadows of toys or themselves with chalk. Watch how they move as the sun moves.

Fizzy Science

Add baking soda to a tray, give toddlers droppers with vinegar + food coloring. Instant bubbly fun!

Build a Bridge

Give them blocks, cardboard, popsicle sticks. Challenge: Can you build a bridge that holds a toy car?

Sound Guessing Game

Fill containers with different materials (rice, coins, cotton balls). Shake and guess what's inside based on sound.

Texture Walk

Make a path with materials like bubble wrap, foil, towels, and sponges. Let them walk barefoot and describe textures.

Pattern Building with Snacks

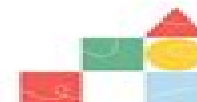

Create and extend simple patterns using cereal, fruit, or crackers.

Lego Towers by Measurement

Challenge them to build towers as tall as different objects — their shoe, a book, a cup.

Bubble Geometry

Blow bubbles and pop them on paper. Count sides, look at sizes, or just talk about shapes.

However, the need for these subjects in our society is crucial. The aim of this book is to pique the interest of children in these areas of study, stress the importance of these subjects, and help encourage children who are interested to continue within these fields as they grow and learn. Whether it's through marvelous mazes, puzzles, testing quizzes, and other fun activities, this book introduces children to the inner working of the world around them and might even one day inspire them to contribute an invention or a theory of their own.
