Foundation Game Design with ActionScript 3.0 Rex van der Spuy,2012-03-28 In response to the success of the first edition of Foundation Game Design with Flash Rex van der Spuy has revised and updated all the code to meet current programming best practices and the focus is now on accurate ActionScript 3.0 regardless of the IDE that you use. We've all sneaked the odd five minutes here or there playing the latest Flash game that someone sent around the office but creating those games is trickier than it looks. The aim of Foundation Game Design with ActionScript 3.0 is to take you even if you've got minimal multimedia or programming experience through a series of step by step examples and detailed case studies to the point where you'll have the skills to independently design any conceivable 2D game using Flash and ActionScript. Foundation Game Design with ActionScript 3.0 is a non technical one stop shop for all the most important skills and techniques a beginning game designer needs to build games with Flash from scratch. Whether you're creating quick blasts of viral amusement or more in depth action or adventure titles this is the book for you. Focused and friendly introduction to designing games with Flash and ActionScript. Detailed case studies of Flash games. Essential techniques for building games with each chapter gently building on the skills of preceding chapters. Modern best practices and new content on ActionScript 3.0. Also covers asset creation in Photoshop and Illustrator.

ActionScript Rob Huddleston,2009-06-08 Visual learners can get up and running quickly on ActionScript programming skills for Flash CS4. If you're a programmer who learns best when you see how something is done this book will have you up and running with ActionScript in no time. Step by step two page lessons show you the core programming foundations you must master to create rich Internet content using the preferred language for work with Flash. The visual approach breaks big topics into bite sized modules with high resolution screen shots to illustrate each task. You'll learn such skills as how to add interactivity, animate in code and work with external content to create Flash projects with pizzazz. Designed for visual learners with two page lessons and step by step fully illustrated instructions. Covers foundation ActionScript animating interactivity and working with external content. Demonstrates using the Actions panel syntax rules and essential language foundations. Shows how to use variables and arrays, write functions, classes, if else statements and loops and work with static classes such as Math. Explores essential techniques such as loading visual aspects at runtime, text from delimited text files and XML and server based assets using Flash Remoting. Companion Web site features all the code that appears in the text ready to plug into your Web pages. ActionScript Your visual blueprint to creating interactive projects in Flash CS4. Professional is the visual learner's way to master ActionScript quickly and easily.
