, 1957. **Youth Digital Health and Online Platforms** Martyna Gliniecka, 2024-12-27. Youth Digital Health and Online Platforms focuses on young people's use of the digital platform Reddit for health. Drawing upon dialogism theory, the book explores how young people produce a youth-led discourse of youth digital health, different from the adult-led framing represented in youth digital health research, policy and service delivery. Peer-led discussions online remain one of the controversial forms of youth digital health, associated with negative peer influence or casual teenage talk. This book argues that online peer-led dialogues support young people's agency in health and that young people can benefit from dealing with health issues with peers. The work is based on the digital ethnography of teenagers' subreddits on Reddit and utilises a theoretical framework of dialogism, a linguistic-based theory originated by an early 20th century Russian philosopher, Mikhail Bakhtin. The book introduces the concept of dialogical youth-led youth digital health discourse, formed in the peer-led space of Reddit. This youth-led discourse celebrates equality and diversity amongst people's meanings and opinions. It is constructed around three relational elements: socio-material affordances, creative practices and a plurality of youth voices. Reddit's pseudonymous, anti-authoritarian and egalitarian nature supports the emergence of this youth-led discourse. The book can
