## 2025 Edition Alien Invasion Fiction:

**Masculinities in Contemporary Science-Fiction Television** Sara Martín, Michael Pitts, 2025-11-13 Through a comprehensive analysis of popular contemporary science fiction television series this book underscores the genre's unique potential to both reflect and shape cultural perceptions of masculinity. Each of its essays written by a host of international contributors analyse key series ranging from Firefly 2002 to Star Trek Picard 2020-23. Employing anti-patriarchal and pro-feminist perspectives they scrutinize the limited diversity among male characters in science fiction television, shedding light on the underrepresentation of non-heteronormative, non-white and transmasculine characters while also highlighting notable exceptions such as Altered Carbon 2018-20, Doom Patrol 2019 and The Umbrella Academy 2019. Against the backdrop of current discussions regarding toxic masculinity this book highlights the ways in which divergent masculinities shape and are shaped by the science fiction genre. In doing so it argues the significant role played by the genre in ongoing discourse surrounding traditional and alternative forms of masculinity.

**The Horror Film** Rick Worland, 2024-09-16 A lively and reliable narrative account of the horror genre featuring new and revised material throughout. The Horror Film An Introduction surveys the history, development and social impact of the genre. Covering American horror cinema from its earliest period to the present, this reader-friendly volume explores the many ways horror movies have been received by filmmakers, critics and general audiences throughout the decades. Concise, easily accessible chapters describe historical instances of the genre's social reception based on primary research, analyze landmark films such as Frankenstein, Invasion of the Body Snatchers and The Texas Chain Saw Massacre, and more. Incorporating recent scholarship on the genre, the second edition of The Horror Film contains new discussion and context for Hollywood horror films in the 1980s and 1990s, as well as notable developments in the genre such as torture porn, found footage, horror remakes and reboots of past horror films, zombies and the elevated horror debate. This edition explores the rise of new filmmakers such as Ari Aster, Robert Eggers and Jordan Peele, surveys horror films made by women and African American filmmakers, and investigates contemporary issues in the production and consumption of horror films. Combining historical narrative with close readings of significant works, The Horror Film Covers major works in the genre such as Cat People, Halloween and Bram Stoker's Dracula. Examines important antecedents including gothic literature and the Grand Guignol Theater. Offers thorough analyses of the style, context and themes of specific horror milestones. Provides examples of close analysis that can be applied to a wide range of other horror films. Discusses important representative titles across the genre's evolution, including more recent films such as 2017's Get Out. The Horror Film An Introduction Second Edition is an ideal textbook for undergraduate surveys of the horror genre and other courses in American film history, and an invaluable resource for scholars, lecturers and general readers with an interest in the subject.
