Learning Objectives

Upon completion of this lab, you will be able to:

- Subnet an address space given requirements.
- Assign appropriate addresses to interfaces and document.
- Cable a network according to the Topology Diagram.
- Erase the startup configuration and reload a router to the default state.
- Perform basic configuration tasks on a router.
- Configure and activate Serial and Ethernet interfaces.
- Test and verify configurations.
- Reflect upon and document the network implementation.

Scenario

In this lab activity, you will design and apply an IP addressing scheme for the topology shown in the Topology Diagram. You will be given one class C address that you must subnet to provide a logical addressing scheme for the network. You must first cable the network as shown before the configuration can begin. Once the network is cabled, configure each device with the appropriate basic configuration commands. The routers will then be ready for interface address configuration according to your IP addressing scheme. When the configuration is complete, use the appropriate IOS commands to verify that the network is working properly.

Note: Use classful subnetting for this lab.

knowledge of the LAN switching and wireless topics from Version 4 of the Cisco Networking Academy CCNA Exploration curriculum. Each chapter contains a Study Guide section and a Labs and Activities section. Study Guide: The dozens of exercises in this book help you learn the concepts and configurations crucial to your success as a CCNA exam candidate. Each chapter is slightly different and includes matching, multiple choice, fill in the blank, and open ended questions designed to help you Review vocabulary, Strengthen troubleshooting skills, Boost configuration skills, Reinforce concepts, Research topics, and Packet Tracer Activities. This icon identifies exercises interspersed throughout the Study Guide section where you can practice or visualize a specific task using Packet Tracer, a powerful network simulation program developed by Cisco Labs and Activities. The Labs and Activities sections begin with a Command Reference table and include all the online curriculum labs to ensure that you have mastered the practical skills needed to succeed in this course. Hands On Labs: This icon identifies the hands on labs created for each chapter. Work through all the Basic Challenge and Troubleshooting labs as provided to gain a deep understanding of CCNA knowledge and skills to ultimately succeed on the CCNA Certification Exam. Packet Tracer Companion: This icon identifies the companion activities that correspond to each hands on lab. You use Packet Tracer to complete a simulation of the hands on lab. Packet Tracer Skills Integration Challenge: Each chapter concludes with a culminating activity called the Packet Tracer Skills Integration Challenge. These challenging activities require you to pull together several skills learned from the chapter as well as previous chapters and courses to successfully complete one comprehensive exercise.
