**Planning**: determining in advance what should happen → essential for organizing, staffing, directing, and controlling

- Involves setting goals and objectives, policies, procedures and methods
- **Characteristics of planning**
  - **Repetitiveness**
    - Standing plans → used repeatedly, provide consistency/predictability
    - Single-use plans → not to be repeated, kept for records
      - To attain specific objectives within short period of time
  - **Time span**
    - Short range/operational → less than a year (e.g. yearly operating budget)
    - Long-range → greater than 5 years (e.g. building plans)

4. **Time span**
  - **Short-range / operational planning** → covers period up to a year
    - e.g. operating budget (usually projected in days, weeks, or months)

at War is a unique book It throws light on important unexplored aspects of the pursuit of historical truth It tells how alone  
among historians Noble Frankland fought in the bomber offensive during the Second World War and then together with Sir  
Charles Webster wrote its official history how he transformed the Imperial War Museum from a dying institution into one of  
the world s leading historical centres for the study of the conflicts of the twentieth century how he played a major part in  
television documentary productions including in particular *The World at War* and how he wrote a series of original rigorously  
researched historical works In *History at War* he describes the battles he had to fight against the mandarins and media  
merchants who sought to impose a spin on history to suit their own ends and were ruthless and unscrupulous in their  
methods Its meticulous documentation gives a guarantee of authenticity to his staggering account of how those in high  
places tried to distort history which might otherwise seem scarcely credible The revelations about Bomber Harris relations  
with his superior Lord Portal during the war and their joint opposition to the two authors account of the strategic air  
offensive still a highly topical issue will set alight a new debate among military and other historians Unlike most books on the  
theory and practice of history it does not confine itself to what can be written on the page It also covers Dr Frankland s  
experience of demonstrating history in museum galleries on the television screen on sites such as Duxford Airfield near  
Cambridge and on board HMS Belfast in the Pool of London The problem for historians of publishing a full and unbiased  
account and analysis of controversial events and episodes in politics and international affairs is as acute in the 1990s as it  
ever has been All readers with a concern for the truth will learn much about such issues from this unflinching and  
penetrating book Robert Crawford Director General Imperial War Museum it is brilliant rivetingly trenchant and should be
